Course Content:

The biblical narrative of worship demonstrates its centrality in both the Old and New Testaments. Jesus revealed a profound principle and focus on worship when he declared, “God is Spirit, and those who worship Him must worship in spirit and truth.” In this interactive course with visiting worship leaders, we will give an overview of the biblical narrative and explore numerous facets of the Christian worship experience. The course is designed to help draw the learner into a deeper worship experience and into a closer relationship with Jesus Christ. This will empower learners to live more aware of God’s love, to hear from God in new ways, and to experience personal change. Guest worship leaders will be invited to share from their experience and ministry, adding depth and understanding to the topics covered. The Bible will be our textbook and helpful resources will be suggested for further study. The class will include practical exercises and assignments that will help you incorporate what you are learning into your personal worship experience.

The subjects covered include:

The “whys” of worship; components of worship and how to worship; the supernatural power of worship; use of spiritual gifts in worship; methodology in worship; problems and pitfalls in worship; cultivating personal worship.
