

**Shooting Positions**  
**Mission Critical Texas**  
**CHRONOS**

**EXTENDED READY**  
(AKA Low Ready)

Extended Ready position begins with the body centered up on Target 1, with the pistol pointed where the base of the Target 1 meets the ground (conceptually at the target's feet). Eyes are focused on the intended point of impact. The trigger finger is indexed along the side of the frame and outside of the trigger guard.

**Ratings Utilizing This Position**  
STATIC REACTIVE PREDICTIVE

**TRANSITION**

Transition position is the midpoint between drawing and presenting the pistol. Transition begins with the body centered up on Target 1, with the pistol oriented toward the center of the Target 1 body plate. The trigger finger is indexed alongside the frame and outside of the trigger guard.

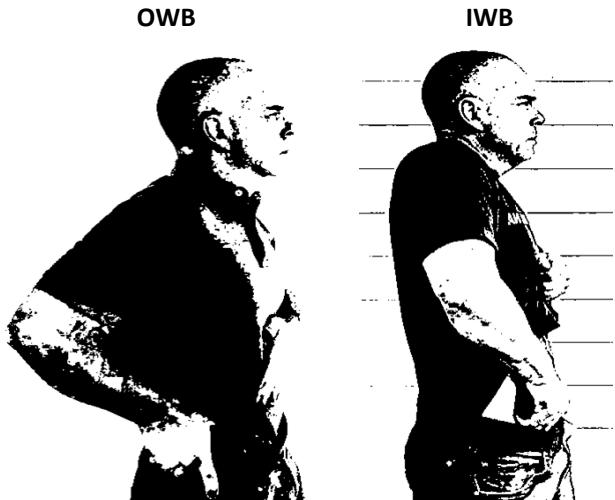

**Ratings Utilizing This Position**  
STATIC REACTIVE PREDICTIVE

**HOLSTER**

Drawing from the holster begins with hands located as described within the individual stage / string descriptions (hands naturally at sides, wrists above shoulders, etc).

Both outside the waistband (OWB) and inside the waistband (IWB) holsters are allowed.
