

## Carbon Reduction Plan

Publication Date: April 2024

### Commitment to achieving Net Zero

DMG Developments is committed to achieving Net Zero emissions by 2050.

### Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2023	
Additional Details relating to the Baseline Emissions calculations.	
Our current reporting year is our baseline year. Our Greenhouse Gas inventory has been created in accordance to the GHG protocol.	
Baseline year emissions:	
EMISSIONS	TOTAL (tCO <sub>2</sub> e)
Scope 1	38.7
Scope 2	7.75
Scope 3 (Included Sources)	Not recorded
Total Emissions	46.45

### Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to 23tCO<sub>2</sub>e by 2029 This is a reduction of 50%.

### Carbon Reduction Projects

In the future we hope to implement further measures such as:

- Adopt solar electric generation at our premises.
- Ensure our energy requirements are provided by renewable suppliers.
- Reduce our waste output, separate and recycle materials further.

[www.dmgdevelopments.co.uk](http://www.dmgdevelopments.co.uk)

- Adopt suppliers who offer sustainable products and are committed to reducing their carbon footprint.
- Replace petrol and diesel vehicles with electric powered vehicles.

#### **Declaration and Sign Off**

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and uses the appropriate Government emission conversion factors for greenhouse gas company reporting.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of the Supplier:
