Karenni State Consultative Council (KSCC)

## KSCC Member Organizations' Statement of Commitment

No (1/2023)

20<sup>th</sup> January 2023

1. The terrorist coup-markers attempted to seize the power of the state illegally and have brutally committed inhumane acts of extra-judicial arrests, executions, burning-down of entire villages, and sexual violence against innocent civilians. Youth, women, civil society organizations, political parties, elected parliamentary representatives of the 2020 General Election, strike committees, CDMers, and ethnic revolutionary organizations are actively fighting for the end of the military dictatorship.

2. As all the member organizations in the Karenni State Consultative Council are working to eradicate the military dictators, all forms of dictatorship and construct a federal democratic union, Karenni State must enjoy the full implementation of its rights to self-determination and state sovereignty from this revolutionary period onwards.

3. Therefore, the below organizations which participate in reforming Karenni State Consultative Council announce to the public that they will stand together as one with them, and based upon collective leadership, they will fight with all their might in political, military, and diplomatic affairs until the end of this military dictatorship, and all forms of dictatorship.
