Welcome

Thank you for choosing Evermore Guest House

We're delighted to host you during your stay. Below is important information to help you settle in and enjoy your time here.

About

A Space to Unwind and Connect- Nestled in the heart of Picton, Evermore Guest House is an idyllic escape where you'll often find yourself reluctant to leave once you've parked your car. Just a five-minute stroll brings you to boutique shopping, fantastic restaurants, galleries and more. The backyard, complete with a heated saltwater pool, expansive deck, wet/dry barrel sauna, and fire-pit overlooking a serene conservation area and Picton's dog park, offers the perfect spot to unwind.

Check In/Check Out

● Check In

4:00 p.m

Before check-in, we'll send you your access code along with any additional information to help you settle in with ease.

● Check Out

10:00 am

As you prepare to check out, we kindly ask that any food be removed from the fridge and taken with you. We'll take care of all garbage disposal.

Please leave all used towels, bathrobes, and bath or beach towels in the laundry bin provided in the laundry room. Bedding can all be left on the beds.

Thank you for taking such wonderful care of the space. We hope to have you back again soon.

Some House Rules

- *No smoking of any kind is permitted indoors.*
- *We are cannabis-friendly in our outdoor spaces.*
- *For everyone's safety, please ensure children of any age are supervised at all times and are not permitted beyond the pool deck gate without an adult.*
- *While we love candles too, we kindly ask that they not be used inside the home for safety reasons.*
- *Please never leave the BBQ or Pizza oven unattended while in use, and ensure the gas is turned off after use.*
- *Evermore Guest House is located in a quiet residential neighbourhood. We kindly ask guests to be mindful of our neighbours, particularly with louder outdoor activities.*
- *For your comfort and safety, we kindly ask that the pool heater not be adjusted unless directed, as it requires several steps and is best handled by our property manager.*
- *In accordance with our licence, the guest house accommodates a maximum of six registered guests.*
- *Daytime visitors are welcome, provided the total number of people on the property remains reasonable and respectful. Please be aware of the noise levels and safety at all times. We are unable to accommodate parties, gatherings, or larger events, including evening or overnight events.*

House information

Laundry and Linens

- *The washer and dryer are available for your use. Please feel free to use them for items you need to launder during your stay.*
- *To maintain our high-quality linens, kindly leave all bedding on the beds at checkout; our cleaners will take care of laundering.*
- *If you need to treat a stain, please: Spray the affected area with stain remover (in the cabinet above the washing machine). Soak in cold water. Allow it to air dry outdoors*

The Pool

- *Your safety is our highest priority.*
- *Children under 12 are never allowed beyond the wood deck without adult supervision. We have a gate provided for additional safety, but want to ensure that this safety measure is always upheld.*
- *If you want to ensure that your heat is maintained at the highest level, you can roll out our solar cover at night to keep the heat in. During the summer months, the pool should maintain its heat.*
- *No diving allowed*
- *Our treed lot means the pool may collect leaves from time to time, despite regular cleaning. You are welcome to use the pool skimmer to keep the water clear during your stay.*

The Sauna

- *Please review the sauna rules posted outside the unit before use.*
- *The sauna is on a load stopper, so if multiple major appliances (oven, dishwasher, washer/dryer) are running, it may not turn on right away. It will reset automatically within about 30 minutes once other major appliances are turned off.*
- *Please watch our user video on the sauna for specific instructions:*
[Watch video](#) 

The Wifi Details

- *A QR code is provided on the fridge to hook up your phone to the Wi-Fi.*
- *If you are setting up your computer or tablet, the wifi information is :Wifi network :
Bell770
Password : **379725239D1E***

House *information*

The Pizza Oven

- *The oven gets very hot, please be careful. The exterior can be hot during and after use.*
- *Cook your pizza between 500 and 700 degrees Fahrenheit*
- *Make sure the gas is turned off after use*
- *Keep your toppings light to ensure that the pizza can slide from your wooden board to your peel*
- *Make sure you use more flour on your board than you think you need*
- *Use the pizza turner to keep moving your pizza, so the part closest to the flame keeps moving*
- *If the temperature display goes off during use, the pizza oven will continue to work, so you can let your pizza continue to cook. This is a battery issue, and it won't affect the use of the oven.*
- *Let our manager Zev know, but feel free to continue using the oven without the temperature gauge*
- *Pizza dough can be purchased at a local grocery store, Foodland, Metro, or homemade*

***Here is a video demonstrating
how to use the new Gozney
pizza oven***
