Cruise Mode: ON!

President's Message

www.easternmasscorvetteclub.org

Hello Everyone!

What a busy, and fun summer, which it isn't over yet, so chill on the pumpkin-spice!

For making this summer such a memorable one, I first want to thank the members who went above and beyond in supporting our club—from organizing long weekend cruises to opening their homes for gatherings. On behalf of EMCC, a heartfelt thank you goes to Frank and Rosemary Fontana, Judy Pitatsi, Steve and Laurie Sylvia, Louis and Patty Accetta, and our newest members, Dave and Cheryl Ringler, for hosting such wonderful parties. The Ringlers, though new, have really jumped right in and become an active part of our family! Thank you!

A special thanks also to Louis Accetta for planning a fantastic White Mountains Weekend, and to our VP, Steve Campbell, for spearheading the Old Orchard "Back to the Beach" event. Looking ahead, Jim Gable is already organizing our beloved Columbus Day Cruise. This year's destination is Cooperstown, NY—be sure to reach out to Jim for details and plan to join us!

This summer also brought our first-ever joint event with North Shore Corvette, which was a big success. Supporting each other's clubs is becoming more important than ever. While weekday cruise nights can be tough with distance and traffic, we can make a real difference by showing up at each other's weekend events. After all, long drives are part of the fun when you love these cars.

Now, as we head into the fall, we can look forward to some spectacular foliage cruises before the season winds down and our beloved Corvettes head into their winter naps. Let's make the most of these next 45–60 days of driving together.

Lastly, a huge THANK YOU to all of our members who contributed to this issue of the Gazette. Your stories and pictures are what make it truly *our* Gazette.

See you on the road and don't forget to save the wave!

Pure Bliss!

Photos: Gerry Criscenzo

Bliss Ice Cream has become an annual favorite of EMCC, and was our first, in June, after months of rained out planned ice cream cruises. Bliss generously provided coupons for free ice creams and many also ordered burgers, dogs and other deliciousness. Of course, its always fun to watch their patrons walk around the cars.

Lemon Blueberry Layer Cake!

Submitted: Donna Crandall (EMCC Secretary)

Ingredients

1/2 cup (8 Tbsp; 113g) **unsalted butter**, [softened to room temperature](#)

- 1 and 1/4 cups (250g) **granulated sugar**
- 1/2 cup (100g) packed light **brown sugar**
- 6 Tablespoons (90ml) **vegetable oil, canola oil, or avocado oil**
- 4 large **eggs**, at room temperature
- 1 Tablespoon **pure vanilla extract**
- 3 cups (375g) **all-purpose flour** ([spooned & leveled](#))
- 2 teaspoons **baking powder**
- 1/2 teaspoon **baking soda**
- 1/2 teaspoon **salt**
- 3/4 cup (180ml) **buttermilk**, at room temperature
- 2 Tablespoons **lemon zest**
- 1/2 cup (120ml) **lemon juice** (3–4 lemons), at room temperature
- 1 and 1/2 cups (210g) fresh **blueberries** (I do not recommend frozen)
- 1 Tablespoon **all-purpose flour**

Cream Cheese Frosting

- 8 ounces (226g) full-fat brick **cream cheese**, softened to room temperature*
- 1/2 cup (8 Tbsp; 113g) **unsalted butter**, [softened to room temperature](#)
- 3 and 1/2 cups (420g) **confectioners' sugar**
- 1 Tablespoon (15ml) **heavy cream***
- 1 teaspoon **pure vanilla extract**
- pinch **salt**

Instructions

Preheat oven to 350°F (177°C). Grease three [8-inch round cake pans](#), line with parchment paper rounds, then grease the parchment paper.

1. **Make the cake:** Using a handheld or stand mixer with a paddle attachment, beat the butter on high until smooth and creamy, about 1 minute. Add granulated and brown sugars and beat on medium-high speed until combined, about 2 minutes. Add the oil and beat until combined and light and creamy, about 3 more minutes. Add the eggs and vanilla, and beat on medium speed until everything is completely combined, about 1 minute. Scrape down the sides and bottom of the bowl as needed.
2. In a large bowl, whisk together the flour, baking powder, baking soda, and salt. Add the dry ingredients to the wet ingredients. Beat on low speed for a few seconds, then beat in the milk, lemon zest, and lemon juice *just* until combined. Toss the blueberries with 1 Tablespoon of flour and gently fold into the batter. Batter is thick. Do not over-mix.
3. Spoon batter evenly into prepared cake pans. Bake for about 22–26 minutes or until a toothpick inserted in the center comes out clean. Remove from the oven and allow to cool completely in the pan before assembling and frosting.
4. **Make the frosting:** Using a handheld or stand mixer with a paddle attachment, beat cream cheese and butter together on medium speed until no lumps remain, about 3 full minutes. Add confectioners' sugar, heavy cream, vanilla extract, and salt with the mixer running on low. Turn mixer up to high speed and beat for 3 minutes.
5. **Assemble and frost:** First, using a large serrated knife, slice a thin layer off the tops of the cakes to create a flat surface. Place 1 layer on your cake stand. Evenly cover the top with cream cheese frosting. Top with 2nd layer, more frosting, then the third layer. Top with frosting and spread around the sides. The recipe doesn't make a ton of frosting, just enough for a light frost. Top with blueberries or lemon garnish if desired. Refrigerate for at least 45 minutes before cutting or else the cake may fall apart as you cut.
6. Cover leftover cake tightly and store in the refrigerator for up to 5 days.

Fontana-Que

Story, Frank Fontana. Photo, Robert Connelly. Eric Hart

Our annual EMCC cookout was held on Saturday June 21st. It was a picture perfect day. We had a great crowd as 61 members and guests filled our yard with cars, tents, chairs, and the show stopper, a porta-john!!

Our club added several appetizers, side dishes, and desserts to compliment the traditional hamburgers and hotdogs prepared expertly by Katrina and Steve Campbell.

Thanks to Eric Hart for the group pictures and fellow club members that added their pictures to our EMCC website and Facebook.

Many thanks to everyone for the assistance with clean up, tent takedown, and for putting away the tables and chairs. Many hands make light work!!

We look forward to seeing everyone on the upcoming cruises and thanks again for contributing to the success of this event; we are truly a great club, awesome friends always.

-Rosemary and Frank Fontana

Memorial Day White Mountain Cruise

Story, Photos: Carol Connelly

May 26, 27, 28 EMCC White Mountain Trip aka Louie's Magical Mystery Tour. Beautiful weather the whole trip! A total of 7 Couples/Corvettes attended - meet up was at Lexington Rest Area and from there we were on our way. Stopped in Ossipee, NH for a great burger lunch at Harley Jacks then proceeded on!

Made a detour to visit an antique covered bridge off the Kancamagus Highway for exploring and photo shoot. Then proceeded to our final destination - The White Mountain Resort in North Conway, NH. Freshened up for dinner - met in the bar and then proceeded to The Ledges Dining Room. Great service and food. After party hosted by Louie and Patti in their spacious suite.

After a hearty breakfast the next morning at The Ledges, the Group did a scenic road trip to Meredith, NH where we got Ben and Jerry's Ice Cream, watched the boats come and go at the docks and some went shopping. Dinner that early evening at Harts Turkey Farm in Meredith where we dined on turkey dinners and lots of laughs. Some of the group split off after dinner and took another scenic drive, led by Kat and Steve "Gran Turismo" Campbell through the winding roads and unbelievably green mountains passing Loon Mountain Resort, Lincoln NH and picking up the Kancamagus Highway where we put our Vettes through their paces. Majority of the time, we were the only vehicles on those huge highways! Early turn in, another great breakfast at The Ledges and left for home with many great memories and friendships made on this trip.

July 4th

Story, Photos: Carol Connelly

Fourth of July Parade in Needham, MA was well attended by 26 EMCC Corvettes - all decorated to the gills with the Red, White and Blue! The Weather Gods again smiled on us and the day was perfect and sunny!

The crowd cheered as we all drove by and loved the revving engines and the beautiful Corvettes gleaming in the sunshine. Bill Schroder even went so far as to gallantly give an injured Revolutionary Soldier, sword and all, a ride to his car after the soldier injured his foot and could not walk! And once again, a fabulous after party hosted by Louie and Patti. Great time had by all - what a way to celebrate America's Birthday!

July 4th

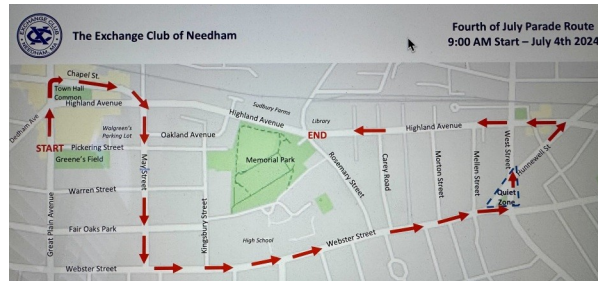

Story, Photos: Gary Crandall (EMCC Treasurer)

The weather was a 10, the participation was a 10, and the experience was a 10. Doesn't get any better than that.

The streets were lined with what seemed to be thousands of adults and kids excited to see all 23 Corvettes that chose to participate.

Engines revved and the kids cheered. Without the Corvettes, the parade would not be as popular as it is. (My Opinion).

The morning was topped off by a get together at Lou and Patti Accetta's house. Thanks to all who participated.

Pitasi Pool Party

Story, Photos: Gerry Criscenzo (EMCC President)

Judy, once again, hosted a great day of fun, poolside in the wonderful backyard of her home. Food included her amazing spareribs, burgers, dogs, sausages and a bounty of other delicious dishes brought by the EMCC members in attendance. The weather was spectacular but on the cool side keeping all but our legs out of the pool. Still lots of fun was had. We also celebrated Rosemary Fontana's birthday (surprise!) with cupcakes from Guarino Bakery supplied by Louis and Patty Accetta. Of course, they also brought cannoli!

And yes, that picture below is Judy in a scuba suit but not in her pool!
She swam inside the tank at the N.E. Aquarium! Yes, the one in Boston!

I did not take the photo but how she got in there is a story you'll just have to ask her!

North Meets East!

Story, Photos: Gerry Criscenzo (EMCC President)

On Sunday, July 13th, North Shore Corvette and Eastern Mass Corvette teamed up for their first-ever joint outing — and what a success it was!

I worked closely with Alan Factor (also an EMCC member) to bring both clubs together, and everything clicked perfectly. The weather couldn't have been better, and Teresa's Grill 19 in North Reading was the ideal spot. (It's also where North Shore holds its weekly static cruise.)

About 70 Corvettes packed the lot, turning heads and drawing smiles. We had music, raffles, a corn-hole contest, trophies for member-favorite cars, and of course a 50/50 — one lucky winner walked away with \$180!

In small groups, we headed into Teresa's for lunch, and the food was simply great.

I'll be teaming up with Alan again for the next joint cruise, which will be hosted by Eastern Mass Corvette. A big thank you to everyone who came out and made the day such a blast!

Pembroke Parade!

Story, Photos: Gerry Criscenzo (EMCC President)

Annually, for one week, Camp Pembroke, hosts "Exceptional Citizens Week" and invites children and adults with intellectual and/or physical disabilities, to attend camp. On Tuesday, August 19, EMCC cruised down, with an ice cream stop at DQ in Pembroke, and provided a Corvette parade through the camp. The smiles and cheers of appreciation were priceless! It was a good feeling. We then parked in the center of the camp so kids and adults could view the cars even sit in some. This was organized by Laurie and Steve Sylvia. Laurie's brother is a volunteer (Security Director) at the camp.

Front Porch Friday!

Story, Gary Crandall (EMCC Treasurer) Photos: Gary Crandall, Dave Ringler, Robert Connelly

On Friday August 15th Cheryl and Dave Ringler opened their house to all EMCC members for a Front Porch Friday Party, and what a party it was. The Ringlers became members in September 2024, and they have been very active by attending most club events and they want to stay very active members.

The Ringlers insisted on hosting this event at their own expense. The food was abundant and fit for a king. It was obvious that they spent many hours preparing for this event, and the food was exceptional.

There were approximately 40 people in attendance and about 20 Corvettes that lined Tilting Rock Road. Several of the Ringler neighbors toured the row of Corvettes in awe of the spectacle. Billy Butts made a lot of new friends by preparing a gourmet cocktail topped with whip cream for any guest who desired to indulge. The Corn-hole title goes to Joe O'Connor who edged out Gary Crandall by a score of 11-9.

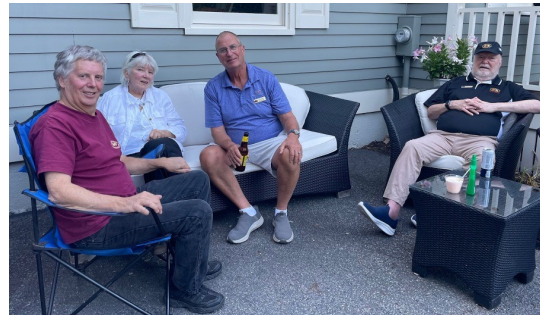

I think I can speak for all in attendance, this event was second to none and Cheryl and Dave deserve all our gratitude for a wonderful event and for all the effort that they put into making everyone feel welcome and walk away with a few more pounds that they arrived with. If you would like your next party catered look no further than the Ringlers!

Sheldon's Cruise!

Story, photos: Gerry Criscenzo

Once again, EMCC returned to Water Stone assisted living in Lexington MA, to put on a Vette show for their residents, which includes Sheldon Epstein. His white C8 was present and driven by his son. We gathered July 26, in Dedham for the cruise to Lexington, where Water Stone graciously hosted EMCC with a great cook out of burgers, hotdogs, beverages, an ice cream. This year they also entertained us a 4-piece band! Also, once again, the weather Gods smiled on us. It's a fun day seeing all the residents enjoying themselves with food and Vettes!

Seacoast Hampton Car Show!

Story, photos: Gerry Criscenzo

Performing at Car shows are some of my band's most favorite gigs. People are always rocking as well as the cars! This show was in Hampton Falls, just a few minutes from Hampton Beach. Weather was perfect and it was so much fun. The Charger took best in show!

Celeb-Vette!

www.easternmasscorvetteclub.org

Baseball and a Corvette!

Story: Bob Hanson (EMCC Membership Director)

Bobby Richardson, the legendary New York Yankees second baseman, received a sleek two-door Chevy Corvette as a prize from Sport Magazine for his exceptional performance in the 1960 World Series, where he became the only player ever to win the MVP award while playing on the losing team. His outstanding play included setting a record with 12 RBIs in the series and batting .367 against the Pittsburgh Pirates.

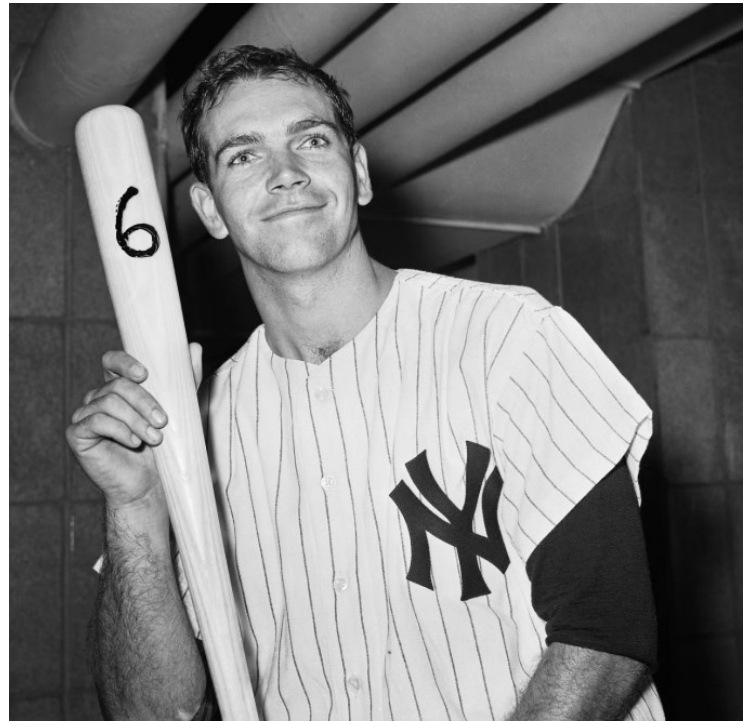

However, with a growing family—including three children at the time—Richardson found the sporty two-seater impractical. He soon traded the Corvette along with his station wagon for a Jeep and a new station wagon to accommodate his family better.

Interestingly, about a year after selling it, he purchased the same Corvette back from an Oldsmobile dealership, though the car had been driven for 9,000 miles by another user.

This Corvette's story mirrors Richardson's practicality and family-oriented values amid a highly successful professional career highlighted by five Gold Gloves and multiple All-Star appearances. His Corvette has since become a cherished part of his personal history, reflecting a balance between his life on the diamond and off it.

Today, Richardson's 1960 World Series MVP award and his Corvette remain symbols of a unique chapter in baseball history, illustrating not only his talent but also his outlook as a family man.

Being a fan of both Corvettes and the New York Yankees (sorry Red Sox fans), I never forgot this story.

After Game 3, Bobby Richardson displays bat marked to represent his six-RBI game. Photo: Bettmann/Getty Images

No More Button Wall: 2026 Vette Gets Revamped!

Submitted by: Scott Sutcliffe

Story: Christopher Smith, May 7, 2025 <https://www.motor1.com/news/758769/2026-chevrolet-corvette-interior-revealed/>

Technically speaking, you could say 2026 marks a mid-cycle refresh for the Chevrolet Corvette. Nothing notable changes out the outside, save for some color choices. On the inside, it's a different story.

Chevrolet listened to customers, and now we have the first official look at the new two-seater cockpit. Right off the bat, you'll notice the controversial spine of buttons is gone. The climate controls are relocated to a horizontal strip on the dash, just above the center console and below the central climate vent. The spine itself is actually still there, but it isn't nearly prominent and now serves as a grab-handle for the passenger.

You'll also notice a lot more digital real estate. The center screen stretches further across the dash and grows to 12.7 inches in size. The driver faces a new 14.0-inch digital screen, and to the left of that is a brand-new 6.6-inch touchscreen serving as an auxiliary display. It's where you'll find driver-centric information like mileage or readouts from the Performance Traction Management system. A new carbon fiber cover over the large driver display is standard on ZR1 and optional for E-Ray and Z06.

Other aesthetic changes include a revamped center console with new cupholders. The drive mode selector is repositioned in line with the gear selector, freeing up space for a wireless phone charger. There are new interior trim and color options, including an asymmetrical option available in Jet Black and Adrenaline red to separate driver and passenger sides. You can even opt for different colored seats if you so choose. There are some tech upgrades for the 2026 Corvette, too. The most interesting is a new mode for the familiar Performance Traction Management system called PTM Pro. In short, it pretty much turns all the assists off—traction, stability, you name it. The only thing left running is the anti-lock brake system, and on the E-Ray, front axle controls. It's available on all trim levels, including the 1,064-horsepower ZR1. That should make the car quite the ride, if you're brave enough.

The E-Ray Performance App is now available on all trim levels, and the Performance Data Recorder is upgraded to work better with the larger screens. Naturally, those screens are all customizable to the driver's choosing, and if you want to load your choice Spotify playlist from your phone, Apple CarPlay and Android Auto are still available.

Only hardcore 'Vette connoisseurs will identify 2026 models from the outside. Hardtop models have a new electrochromic roof that has adjustable tint settings for the glass. The E-Ray gets standard body-color rocker panels. Blue brake calipers are available for the E-Ray and Z06. A new asymmetrical center stripe is offered in red with carbon flash. Roswell Green Metallic and Blade Silver Metallic join the exterior color palette. And the only performance upgrade: ZR1s with the ZTK performance package get new brakes with massive 10-piston calipers in front, 6-pistons at the back, and ceramic discs all around.

"Corvette is the ultimate American sports car, which is why it has remained the luxury sport segment leader for more than 20 years—with the next competitor a distant second in terms of market share," said Scott Bell, vice-president of Chevrolet Global. "With these updates, the mid-engine Corvette will continue to cement its leadership for years to come."

Chevy isn't ready to talk pricing for the 2026 Corvette. Look for that information to come later this year.

Cyber-Tech Tips & Safety

www.easternmasscorvetteclub.org

Outsmart Hackers and Stay Safe Online!

Original Article: Gerry Criscenzo, [High Rock IT Management and Consulting](#)

How many accounts do you really have?

The average person has **20–100 online accounts**—from email and banking to shopping and Netflix.

👉 The problem: Most people reuse the same password (or slight variations).

👉 The risk: If one account is hacked, the rest are easy pickings.

Rule #1: Every account deserves its own unique, strong password.

What makes a strong password?

✗ Myth: Adding “1” or “!” to the end of a weak password makes it secure.

✓ Truth: **Length matters more than complexity.**

That’s why experts recommend **passphrases**—longer, memorable strings of words.

How to create a strong passphrase

1. Start with a sentence or phrase you’ll remember.

Add variety: uppercase + lowercase + numbers + symbols.

Example

- Phrase: “Lets age with attitude!”
- Encoding: Capitalize words, swap a → @, i → 1
- Result: **“L@ts@geW1th@tt1tude!”** (*Don’t actually use this one—it’s just a demo!*)

But how do I remember them all?

With 20–100 accounts, even the best passphrases are tough to track. Writing them on sticky notes or saving them in a file isn’t secure.

👉 Enter our hero: the **Password Manager**.

What’s a password manager?

A **password manager** is a secure vault for all your logins.

You remember just **one master password**, and it does the rest.

🔑 What it does:

- Stores usernames + passwords safely
- Creates strong, unique passwords for you
- Autofills them when you log in

Warns you if a password is leaked

🔒 Why it’s safe:

- Uses strong encryption
- Often requires **two-factor authentication** (a one-time code sent to your phone)

Cyber-Tech Tips & Safety

www.easternmasscorvetteclub.org

🏆 3 Golden Rules for Password Safety

- **Unique passwords only.** Don't let one hack open the door to all your accounts.
 - **Be careful on shared devices.** Don't save passwords on a computer or phone that isn't yours. Always sign out.
 - **Protect your two most important logins:**
 - Your **main email**
 - Your **password manager account**
 - ✓ Memorize them
 - ✓ Don't share them
 - ✓ Use **two-factor authentication**
- 👉 Why? If someone hacks your email, they can reset almost every other password.

🌸 Popular password managers

- **Google Password Manager** → Free, built into Gmail
- **iCloud Keychain** → Free, built into Apple devices
- **1Password** → Paid, works on Android, Apple, and Windows

🌀 Bottom Line

You don't need to juggle 50 complicated passwords.

With **strong passphrases, a good password manager, and smart habits**, you'll stay a step ahead of hackers—and make your online life much safer (and less stressful).
