To Whom This May Concern,

Greater Flushing Community Council, Inc highly recommends Talawah Turf International for grant writing services. Our most recent bid for a grant was successful and in part due to the professional and timely services rendered by TTI. The president of the organization herself, Dr. Sherone Smith-Sanchez made herself available at every step of our process. Given similar circumstances, we would certainly consider this organization again for future projects.

Sincerely,

Thanh Kim Huynh
Director
