## CURRENT IMMERSIVE PROJECTS

- CTT  
Spatial educational reflection experience for visionOS and iOS using immersive environments, multimedia interaction, and symbolic storytelling.
- Hangar Time Jump  
Experimental immersive aviation and historical exploration concept focused on educational spatial experiences and environmental storytelling.
- Independent Spatial Media Experiments  
Interactive multimedia prototypes combining audio, immersive space design, AI-assisted workflows, and educational interaction systems.

## LOOKING FOR

- Brand partnerships
- Immersive technology collaboration
- Spatial media opportunities
- Creative development support

## About

Alberto Russell became a supportive role of self amplification back in 1984, he has been able to self educate in fields of spatial computing, video editing, engineering code, and releasing applications available world wide. Self aware that there is no space for amplification without resilience, intelligence, and positive attitude. Aware that education guides to the assurances of the previous statement. He is able to fit in with many groups meanwhile staying independent.

## Social Media Impact

- 700 Followers in 5 channels.
- Diversified from Gearheads to spiritualists.
- Equality from ages 25 to 65.
- Inclusive from Europe to South America.
- Real life exhibiting examples of creative ideas, car maintenance, arts and understanding of self empowerment.
