

PASS Membership Fees & Structure

At PASS, we strive to make membership accessible, fair, and excellent value for money. Our standard annual membership fee is just **£40 per year**, due annually every February. To ensure you only pay for the portion of the year you join, we offer a pro-rata fee structure for all new members during their first year.

First-Year Pro-Rata Fee Schedule

When you join PASS partway through our membership year, your initial fee is calculated quarterly based on how close you are to the next annual renewal in February:

- **Joining 3 quarters before February (May – July):** Initial fee is £30 (covering the remainder of the year until annual renewal at £40 in February).
- **Joining 2 quarters before February (August – October):** Initial fee is £20 (covering the remainder of the year until annual renewal at £40 in February).
- **Joining 1 quarter before February (November – January):** Initial fee is £10 (covering the remainder of the year until annual renewal at £40 in February).
- **Annual Renewal (February):** Full annual membership renews at £40.

How Fee Payment Works

Once your application has been formally approved, you will receive notification confirming your exact initial pro-rata fee based on your join date, along with clear payment instructions. There are no hidden administrative charges, and your membership benefits begin immediately upon approval.
