

Train in the Distance

[Intro]

I hear the sound, a train in the night
Calling me home, a distant light

[Verse 1]

The tracks run through this endless land
Where dreams are dust and hearts like sand
But there's a promise beyond the pain
A distant voice, like a holy refrain

[Chorus]

Like a train in the distance, I'll follow the sound
Through the valleys of doubt, where hope is found
You're my shelter, my guide, my song in the night
The train in the distance will lead me to light

[Verse 2]

Your love's the whistle on a restless breeze
Breaking the silence, bringing me peace
Though far away, I know You're near
Your light cuts through my darkest fear

[Chorus]

Like a train in the distance, I'll follow the sound
Through the valleys of doubt, where hope is found
You're my shelter, my guide, my song in the night
The train in the distance will lead me to light

[Bridge]

Even when I stumble, when I lose my way
Your love pulls me back, You're my saving grace
I hear You calling, steady and true
The train in the distance is leading me to You

[Chorus]

Like a train in the distance, I'll follow the sound
Through the valleys of doubt, where hope is found
You're my shelter, my guide, my song in the night
The train in the distance will lead me to light

[Outro]

The train in the distance is closer now
With You beside me, I've made my vow

No longer lost, I'm found in Your grace
I'll run to the light, where love takes its place
