

NightBird

The Ultimate Tribute to Stevie Nicks

NightBird SWFL- RIDER -FLORIDA

Our needs are pretty simple. We need adequate extension and power supply to all parts of the stage as we use other lighting on stage that will need adequate extension power. We require power monitors to 4 members of the band not including the lead vocalist and bass guitar player as they use in-ear monitor systems. We can supply our own floor monitors as needed. 1-8x8 Drum risers. All connective cords to sound system. We supply our own vocal mics. Instrument mics can be supplied by the band unless venue/sound engineer prefers their own.

Complete FOH system with experienced sound & lighting engineers required.
Minimum stage size 30 feet deep x 30 feet wide.

Misc.

2 Separate Dressing areas with mirrors & lighting

Bottled water, Snacks, Soft Drinks

6-Healthy hot meals for day of show (vegetarian & non-vegetarian) options

Private restroom area

ACCOMODATIONS

For venues more than 2 hours away from Cape Coral, Florida:

5-Double rooms within 10 minutes of venue.
