

V5

HEAVY-DUTY CENTRIFUGAL PUMP

***Don't Settle for Imported.
Built Here. Pumped Here.***

The V5 is a heavy-duty centrifugal pump engineered for maximum performance and reliability in demanding applications. It is a traditional 12x14 drop-in designed with minimal changes. Built tough with premium materials and precision engineering, the V5 delivers exceptional wear resistance, efficiency, and extended service life in the harshest environments.

SPECIFICATIONS

Available Size	14" x 8"
Max Pressure	225 PSI
Impeller Options	3 Vane, 4 Vane

KEY FEATURES

EXTREME DURABILITY

WD proprietary high-chrome construction delivers superior resistance to abrasion, erosion, and wear, maximizing service life in the toughest pumping environments.

HIGH PERFORMANCE

Optimized flow design delivers maximum efficiency and dependable performance when handling high viscosity, high sand concentrations, and abrasive fluids.

MADE IN THE USA

Built with domestic materials and proudly made, engineered, cast, machined, and assembled in the USA to deliver uncompromising quality, performance, and reliability.

BUILT TO DELIVER.

At WD Pumpco, we engineer rugged, high-performance solutions that keep your operation moving.
