

# Squashington Farm's 2020 Plant Sale!

We will have a variety of plant starts available at the Mount Horeb Farmers Market as well as on-farm. Please browse this list before making your selection via our online store.

We sell tomatoes in 3" pots.

| Variety                                    | Description              | Days to Mature   | Determinate (d) or Indeterminate (i) | Availability |                                   |
|--|--------------------------|--|--------------------------------------|--------------|-----------------------------------|
| <b>Heirloom Slicers - 8-18oz Fruits</b>    |                          |  |                                      |              |                                   |
| <b>Heirloom Slicing</b>                    | Aunt Ruby's German Green | One of our all-time favorites, this green tomato blushes yellow/pink at its bottom when ripe. A perfect sandwich tomato. 10-16oz                                       | 85                                   | i            | May-Mid-June while supplies last! |
|  | Beefsteak                | A classic, large, red heirloom. Old tomato taste, perfect for a BLT. 16oz  | 75                                   | i            |                                   |
|  | Black Prince             | Old Russian heirloom known for its deep, dark color and juicy fruits. Very productive. Thin skin does tend to crack. Slightly smaller than these other heirlooms ~8oz. | 70                                   | i            |                                   |
|  | Cherokee Purple          | A beautiful, smoky, purple slicing heirloom. A unique flavor, and definite attention grabber. Makes a wonderful color addition to a tomato plate. 12-16oz              | 80                                   | i            |                                   |
|  | Great White              | One of the best-tasting white tomatoes. Large, with a creamy texture. 12-16oz  | 80                                   | i            |                                   |
|  | Hungarian Hogheart       | A real stunner. Very heavy fruits are dense, and full of old time tomato flavor. Great sliced on a sandwich, but also a good canning tomato! 16oz                      | 80                                   | i            |                                   |
|  | Italian Heirloom         | Large, reddish/pink slicing tomatoes that you can even can. Full tomato flavor with very little waste. A clear standout! 12-16oz                                       | 75                                   | i            |                                   |
|  | Muskvich                 | 4-6oz fruits are VERY early and can tolerate a cool season. Round, red, and rich in flavor.  | 60                                   | i            |                                   |
|  | Striped German           | Tie-dye coloring of mostly yellow with orange and red blushing on its bottom. Sweet, almost tropical flavor. Low acidity. 12-16oz                                      | 78                                   | i            |                                   |
| <b>Cherry Tomatoes - 0.5-1.5 oz Fruits</b> |                          |  |                                      |              |                                   |
| <b>Cherry</b>                              | Atomic Grape             | A crazy, technicolor chery tomato from Wild Boar, these elongated cherries are very productive.  | 75                                   | i            | May-Mid-June while supplies last! |
|  | Black Cherry             | (Heirloom) Another favorite of ours. These dark purple fruits have full tomato flavor in a large, cherry tomato shape! A beautiful color and wonderful flavor          | 70                                   | i            |                                   |
|  | Blush                    | A super sweet, elongated yellow tomato "blushed" with pink stripes. Very productive. Thin skins often crack  | 70                                   | i            |                                   |
|  | Sweetie                  | A classic super sweet, red cherry tomato. Perfect for snacking right off the vine. Very productive.  | 65                                   | i            |                                   |
| <b>Paste Tomatoes - 2-16oz Fruits</b>      |                          |  |                                      |              |                                   |
|  | Amish Paste              | (Heirloom) A time-tested, large canning tomato. Red fruits are meaty and can be eaten fresh or used for canning.   | 85                                   | i            |                                   |

|   |                    |   |    |   |                                   |
|---|--------------------|---|----|---|-----------------------------------|
| Paste                                   | Hungarian Hogheart | (Heirloom) A real stunner. Very heavy fruits are dense, and full of old time tomato flavor. Great sliced on a sandwich, but also a good canning tomato!   | 80 | i | May-Mid-June while supplies last! |
|   | San Marzano        | A perfect paste tomato. Very productive, nearly perfect fruits are on the small side, but very meaty and flavorful  | 78 | i |                                   |
|   | Speckled Roman     | (Heirloom) A true beauty! Deep red, elongated fruits are striped with blazes of yellow/orange. VERY flavorful. Great on salads as well as for canning   | 85 | i |                                   |
| Saladette Tomatoes - 4-8oz Fruits       |                    |   |    |   |                                   |
| Saladette                               | Fireworks          | Round, red, extremely early-maturing for a medium slicer. Sweet, meaty, flavorful.  | 60 | i | May-Mid-June while supplies last! |
|   | Garden Peach       | (Heirloom) How strange? A tomato that feels like a peach?! These small, yellow fruits blush pink when ripe. Really fun to grow with kids due to their "peach fuzz" texture.   | 71 | i |                                   |
|   | Glacier            | These are some of the most flavorful tomatoes we have ever eaten. It's crazy how much flavor is in this small tomato! Very productive. Very good. Round, red.   | 55 | d |                                   |
|   | Green Zebra        | A very fun tomato. Bright green skin is striped with yellow. Meaty, tart, and visually stunning. Great for any tomato plate!  | 72 | i |                                   |
|   | Jaune Flamme       | (Heirloom) Another reason why all things "French" are considered superb. This medium-sized, bright orange tomato is full of unique tang and sweetness. One of our favorite varieties. Very productive. Great on a tomato plate. | 75 | i |                                   |
|   | Subarctic Plenty   | (Heirloom) Amazingly early, maybe the earliest tomato! Good for container growing, great for the North with cool, short seasons.  | 45 | d |                                   |
| Hybrid Slicing Tomatoes - 4-16oz fruits |                    |   |    |   |                                   |
| Hybrids                                 | BHN-871            | A professional, greenhouse tomato. Orange, and very dependable and surprisingly productive. Large, 10-12 oz fruits.   | 74 | d | May-Mid-June while supplies last! |
|   | Black beauty       | Perhaps the darkest tomato out there. Very high anthocyanin content (antioxidant) equivalent to blueberries! Complex flavor profile. Full sun is actually not preferred.  | 75 | i |                                   |
|   | Dark Galaxy        | One of the prettiest and most unique-looking tomatoes we have grown. Looks like a photo taken from outer space.   | 75 | i |                                   |
|   | Martha Washington  | Our favorite tomato to grow. These medium sized, round, pink-skinned beauties are prolific and dependable. They grow like hybrids but taste like heirlooms! A true stand out.   | 78 | i |                                   |
| Hybrids                                 | Wisconsin 55       | A home-state creation! These tomatoes were designed to perform well in our climate so you can bet they will be dependable producers. Medium, round, red fruits are a class.   | 80 | i |                                   |

|                              |                   |  |                |              |                              |
|------------------------------|-------------------|--|----------------|--------------|------------------------------|
| F                            | Vintage Wine      | Bright red skin is flecked with yellow stripes. 8-10oz fruits are excellent in flavor and are great in salads and on sandwiches! | 84             | i            |                              |
| <b>Peppers</b>               |                   |  |                |              |                              |
| Peppers are sold in 3" pots. |                   |  |                |              |                              |
| Sweet Peppers                |                   |  |                |              |                              |
|                              | Variety           | Description  | Days to Mature | Fruit Color  | Availability                 |
| Sweet Peppers                | Carmen            | One of our most popular peppers; VERY sweet, productive, flavorful. Italian frying type.   | Gr-60; R-80    | Green/Red    |                              |
|                              | Escamillo         | The companion to Carmen. Large, sweet, productive yellow Italian frying pepper   | Gr-60; Y-80    | Green/Yellow |                              |
|                              | King Crimson      | Traditional, blocky bell pepper. Sweet and dependable.   | Gr-60; R-75    | Green/Red    |                              |
|                              | King of the North | A great bell pepper for our northern clime. Prolific and sweet.  | Gr-60; R-70    | Green/Red    |                              |
|                              | Sweet Chocolate   | One of our favorites, unusual chocolate color on the outside and deep mahogany reddish color on the inside. Very sweet.          | Gr- 75; Br-85  | Green/Brown  |                              |
| Hot Peppers                  |                   |  |                |              |                              |
| Hot peppers                  | Anaheim           | (Heirloom) Mild to medium heat. 5-8" long. Great all-purpose chili. Can be harvested green or red.                               | Gr- 75; R-85   | Green/Red    |                              |
|                              | Jalapeno          | Very spicy! Fruits can get upto 5" long. Thick-walled and flavorful.   | Gr-75; R-85    | Green/Red    |                              |
| <b>Greens and Brassicas</b>  |                   |  |                |              |                              |
|                              | Type              | Description  | Days to Mature |              | Availability                 |
| Greens and Brassicas         | Curly Kale        | Green and curly, it's what you see in the store.   | 65             |              | Limited Quantities, May-June |
|                              | Lacinato Kale     | Also known as Dinosaur Kale or Tuscano. Flat, dark-green, bumpy leaves are tasty.  | 65             |              |                              |
|                              | Purple Kale       | The purple version of green curly kale.  | 65             |              |                              |
|                              | Collard Greens    | Gorgeous plants yield masses of flat, dark-green leaves that are mild, delicate, and healthy.                                    | 65             |              |                              |
| Brassicas                    | Rainbow Chard     | Vibrant colors from red, yellow, orange, pink, and white. Plants can even be used as ornamental landscaping.                     | 60             |              | Limited                      |

|                     |                  |   |    |  |                              |
|---------------------|------------------|---|----|--|------------------------------|
| Greens and B        | Lettuce Mix      | An assortment of different types and colors of lettuce. Cut and come again.   | 28 |  | Limited Quantities, May-June |
|                     | Baby Kale        | A party pack of Red Russian kale. Plant close together and cut and come again for a flavorful and nutritious salad green. | 28 |  |                              |
| <b>Cucumbers</b>    |                  |   |    |  |                              |
| Cucumbers           | H-19 Little Leaf | A very productive little pickling cucumber plant.   |    |  | Limited Quantities, May      |
|                     | Lemon Cucumber   | A novel thing to grow, fruits are round and lemon-yellow. Great to eat off the vine or in a salad.                        |    |  |                              |
|                     | Silver Slicer    | A white slicing cucumber. Very crunchy and mild.  |    |  |                              |
| <b>Other Things</b> |                  |   |    |  |                              |
| Other Things        | Scallions        | Grow your own green onions!   |    |  | Limited Quantities, May-June |
|                     | Leeks            | A beautiful vegetable to watch grow all year.   |    |  |                              |
| <b>Herbs</b>        |                  |   |    |  |                              |
| Herbs               | Basil            | Genovese-type great for pesto, caprese, or anything!  |    |  | May-June                     |
|                     | Greek Oregano    | A classic in Italian dishes.  |    |  |                              |
|                     | Zata'ar Oregano  | A classic mediterranean herb.   |    |  |                              |
|                     | Tulsi/Holy Basil | Excellent herb for fresh tea. Known for medicinal properties  |    |  |                              |
|                     | Chamomile        | Fragrant and great as a tea   |    |  |                              |
