

My name is David Cassani. I have been active all my adult life in the Church serving many bishoprics and teaching adults and youth. I have a large family and keep to simple gospel living. I have not been one to join movements or spend much time on Church history.

I am not a web developer, but have a background in engineering, facility management and education. Please forgive my weak efforts to create this website and try to overlook my grammar or mistakes.

I have been told of a work foreseen to come to a David in the last days - as we learn in Church history and the recent documents published by the Church.

In March of 2017, this work was confirmed to me by the Savior himself while in the Korea Temple. A work to help the world prepare their homes and neighborhoods for the Savior's return.,---I have been told we are to do this by helping communities in returning to the simple ways of God. I was first given witnesses of this work on my mission to Washington DC from 1976-1978 with added witnesses coming near that time through an elderly sister I baptized and others in the Church. I forgot most those witnesses until years later when the spirit returned those memories to me, and one sister White visited me from the spirit world. In 2017, I have received repeated promptings to Proclaim this work and been directed to share this work with you now here in Provo where we recently moved.

I testify this is not my work. It is organized in the heavens and with ancestors to support us. Simple guidelines have been given. This is a work organized on the other side and a work we may do together and with communities where mothers feel called to help start this.

Admittedly when I received details of this work - powerfully given by the spirit in the year 2000, at first - I resisted speaking what I felt coming powerfully up through my entire being, - knowing this parallel role to the Prophet was **contrary** to traditions I or my wife were accustomed to. The spirit prompted me **not to fear** what others would think, but to **speak with integrity- the truth** I was receiving. As I did additional aspects of this work and calling came to me - a **parallel** work to the Church, a work beginning in East Asia, and a work involving an extension of a neighborhood family education center I had built in Orem, and Provo Utah.

Understandably - my wife listened and questioned my sanity. She herself had been visited four times from a chinese sister in the spirit world and was spelled the name of a child to adopt, but she nor I at that time saw how all the dots connected. I had no idea at that time — of the Political Kingdom of God coming **before** the second coming - as a separate organization from the Church as indicated in recent Church publications and the release of these records.

I learned keys of why this connection came with China. I would learn more of these specifics in 2010, 2013 and 2014, specifically that this was a parallel work to the Church - YET SEPARATE from the Church. I would not get confirmation of this in Church history and the scriptures until 2013-2015. I learned **the minutes of the Political Kingdom of God** were released in November of 2010 **from the First Presidencies** office. Also, in 2015, I was introduced to Dr. Gileadis translation of the Book of Mormon into Hebrew and his translation of a Davidic servant to prepare the way before the second coming. This David would be a servant of the Lord that would be rejected to some measure - as the Jews rejected Christ.

Joseph Smith spoke of a David in the last days to come forth and prepare for the Saviors coming. Just before Joseph's death - as the endowment was being received, he instructed the brethren to burn the minutes of the Council of the political kingdom of God or keep them safe. They were kept safe with the First Presidencies until 2010 when they were released by President Monson to the Church historical department.

This decision by President Monson would not seem very significant to most the Church, but it made a great deal of sense to myself and what the Lord had revealed to me in 2000, and later in 2010. Admittedly at first, what the Lord had given me seemed so contrary to our LDS traditions and what I had learned - until I search more in the writing of Isaiah our history. See Historical notes.

I had learned - in the year 2000 - in both quiet ways and powerful ways, that I was called to lead this work. **Not a work to rule over others**, but lead and serve and support parents in their stewardship and calling (now and here after) to be leaders or kings and queens in their own communities - given tools and an economic plan for tipping those communities to another way of life - producing basic needs and helping those in need - working in neighborhood councils.

It is my witness this is a work foreseen by Lord and given to the Prophet Joseph Smith as a key to understanding the endowment. Two organizational names were given to me. The first name came to me - ministered to by my mother who passed away, then weeks later it was confirmed to me - as I felt the presence of the Prophet Joseph Smith, and Emma along with many others and **multitudes** of those of Chinese lineage testifying to me. Why chinese, I would not learn until years later.

When this came to me in the spring of 2010. I was given a blessing at that time by a local Bishop and near the end of the blessing and after a long pause he said, *President Monson will help you.*

Few of you know, and most the world will miss this great contribution by the Lord to the world -through President Monson. The Church in 2016 released videos to the world - with statements that they want **all the world** to know of the Council of Fifty, and minutes of the political Kingdom of God . This release of these papers came from the First Presidencies office in November of 2010, **just three months after I sent a letter to the First Presidency** of my experience with the Prophet Joseph Smith. The Church would take about 7 years to publish these minutes and create videos to educate members. From 2010, to 2017 I was also receiving - line upon line - added pieces of details regarding establishing the roots of the Political Kingdom of God in preparation for the second coming. While I have no doubt of this work for myself, I recommend prayer and guidance from the Lord for confirmations of this. While many will be involved I had been lead to bring this message to mothers into their homes on the web and through smart phones.

Was this a coincidence that the First Presidency released these records of the Political Kingdom months after I received and was given blessing about this? Did the First Presidency read my letter.? I do not know. The Church sent my letter to my local bishop and stake President recommending I address issues with them. My local leaders did not claim to agree or disagree, and I was not looking for their approval as much as I just felt prompted to share it and be amenable to their counsel. I share that counsel with you.

My own witnesses and instruction kept coming as I was taken to the others side of the veil and shown how the endowment is simple when understood with this work and tutored by the spirit. My ward bishop and Stake President reviewed what I received and did council me not to imply any endorsement of this by the Church in 2014 and 2015.

I wholeheartedly agreed - knowing the nature of this work and the agency needed for the Saints to learn of this- that made sense . Were the Church to endorse this work we would see those coming to it out of tradition, perhaps obedience, and not conviction. , "Group thinking" has been a concern of the brethren in many ways and the start up of this work will need those accustomed to following inspiration and not just traditions of the culture, or obedience to a leader. We have been told the quality of faith to withstand the trials of our time will require us to have a **personal relationship** with God. I believe this website will increase our ability to learn the language of heaven, of healing and simple cooperation in communities.

My leaders counseled me that this was not for discussion in Church buildings as it was a political and health movement. I wholeheartedly agreed - given the nature of Simple Living Centers within us and our personal path of health, healing and joy in this life. The nature of the Simple Living Centers of consciousness within us must operate on integrity and choices. That was revealed to me, and is common sense. When I was given this work in 2000, I was taught these seven living centers in our anatomy are simple, involve our stored family and personal emotional history and work of complete integrity emotionally with God helping from the heavens, ---and with men and women working together with the healthy powers coming up from the earth. This journey must be learned in heavens way and time, not man's academic efforts alone, or self ambition. We are individually tested as we need to be. Welcoming those tests or lessons, can be so much easier when we are willing to learn.

This work is to be separate legally from the Church, foreseen as a **parallel** effort needed in these last days. Let the spirit guide you in learning about this as you ponder this work in the temple. and reflect on what you may learn and contribute to this website. This site will be what many of you bring in experiences and testimony. I will start a monthly newsletter of updates and contributions that are approved for sharing.

I solemnly testify the simple key pieces of this work came from God, with many key parts coming to me in the temple and at home through John the Revelator ministering to me. This work is hinted in Church history and yet up to our faith and desire to seek truth. I have felt it supported from the living earth, through my ancestors and those leaders of the Church who have come before us. I leave this solemn witness in the name of Jesus Christ. He is my friend, my Savior, and our Eternal King.

Sincerely.: David Andrew Cassani

Keys to peace or understanding the Kingdom of God within are simple to understand and help us make choices and give vision to creating Simple Living Centers in our homes. These principles bring us a purity or clear channel of connection to the heavens and the earth. We can receive and see how we can create a new generation of healthcare using living foods, a new generation of healthy producing homes and a new way of life in neighborhoods taking care of those in need. We can learn to live the present and be one with mankind - connecting the heavens and the earth. Each moment we are in one of three states - peace - weakened - stressed or anger. We can learn moment to moment how to get out of these negative emotions into peace, joy and learning. As we learn, more light and truth will come.

1. As we understand our living constitution within us, our spiritual/emotional anatomy - we can work together in developing Simple Living Centers in homes around the world. Joseph Smith taught of our Living Constitution as he was receiving the endowment, running for president, and organizing the Political Kingdom of God.

II. Neighborhoods may organize councils to rent facilities to foster this type of learning for youth. There may be after school programs or efforts within existing schools after school to bring portions of this work to communities. These Simple Living centers can be managed by neighborhood Councils and in time supported by town wide fundraising. We started one in Taiwan in an after school

language center and our home. We did another in Nauvoo, then movement to Provo in August of this year.

III. The 3rd phase of Simple Living Centers are community/contractor teams working together to build permanent facilities - built by neighborhood volunteers and contractors working together -these centers provide a vision for managing health and re-skilling our youth - creating homes and communities to live another way of life. A work - centered in understanding the seven living centers within each of us. These facilities are to be built that they MAY be turned into neighborhood temples we can walk to.

March 16, 2017 from Chris Caldwell

I must leave my testimony: I testify in the name of Jesus Christ that this work that David is engaged in is the work foretold of by Isaiah in the Old Testament. I know that David has been called and prepared from the foundation of the world to set up the restitution of all things before the Second Coming of Christ. I testify that David is this servant spoken of by prophets in the Old Testament.

With God as my witness, and with angels testifying to me, I cannot share certain experiences as to their sacredness, but I know it to be true with every fiber in my being. For I have seen it's inception since the beginning, and have been side by side with David in witnessing the mighty testimonies and work of the Lord. For I know this work is true as surely as the sun shineth in midday, and to deny otherwise would bring me under the condemnation of the Lord Almighty.

The world shall know of the divinity of this work, whether now or later, and every knee shall bow and tongue confess that Jesus is the Christ, the Son of the living God, and that David is indeed this "political prophet" foretold to come forth in the dispensation of the fullness of times before the second coming of Christ, to work alongside the ecclesiastical Prophet of the restored Church to bring people to an awareness of the fullness, and the great and mighty work of God. May we wade through deep waters, pass through cold and treacherous mountains, and travel through the vast stretches of the world to proclaim the truthfulness of this work and glorify the Lord. This testimony I leave, and seal with my own blood if need be, even in the sacred name of Jesus Christ, amen.
