# The Political Kingdom of God

Declarations and Covenants  
From the First Presidency of the First Council of Fifty

*I, David Cassani* solemnly and humbly testify I have received in the year 2000—a powerful, undeniable witness of this calling to lead this movement in a prophetic role—indeed a parallel role fully recognizing now that I understand this work, the Prophet of Church is the one I look to. Until that time, I did not act on this revelation because it did not make sense back in 2000. With the Church’s release of the Joseph Smith papers and the Council of Fifty minutes from the First Presidencies office, this calling now makes sense and thus this proclamation has been directed by the spirit to come forth now.

I declare, that the two key names *Simple Living Centers* and *Habitat for Health*, were revealed seven years ago in April of 2010, and that this organization was foreseen by the Prophet Joseph Smith to carry out a work of feeding His Sheep—indeed neighborhoods and nations as referred to anciently in Ezekiel 34. In our history, we learn this work would come forth during a time of *political turmoil* in the world and in preparation for the Second Coming.

While in the endowment room of the Timpanogos Temple in the Summer of 2010, I received from John the Revelator, even the same Apostle that was translated to bring this work about in our day, two key tokens, and three financial keys to this work and that this is an inspired plan for a small group of people to lead a town wide movement to tip the consciousness of communities to local food production. In addition, this is an inspirational plan, a simple way to restore health, produce living foods and develop town wide local and home food production. I testify the Heavens will assist this work as will the ministering of our ancestors on the other side.

Miracles small and large have accompanied this work. Hyrum Smith has come in vision, Joseph and Emma’s presence has been felt, as has a quiet, ministering from the Lord himself while in the South

Korea Temple just before the release of this Proclamation. This is a work referred to in the Doctrine & Covenants in section 93 by John the Revelator. This is the work referred to by the prophet Isaiah to come forth to a Davidic Servant for the world. This is a work from John for restoring mankind to the simple ways of God—ways hidden from the world. With God as my Witness, and as Prophet, Seer and Revelator for the **Political** Kingdom of God, I invite all endowed members to prayerfully consider supporting this work and being part of leading this work in your areas or where ever you feel guided to develop these communities. I am your brother in this cause—The World Servant today. —Brother David Cassani.

*I, Christopher Caldwell* boldly testify in the name of our Lord and Savior, even Jesus Christ that this work that David is engaged in is the work foretold of by Isaiah and other Prophets in the Old Testament. I know that David has been called and prepared from the foundation of the world to set up the restitution of all things before the Second Coming of Jesus Christ, and that he is surely a Servant to all the world.

With God as my Witness, and with Angels testifying to me, I cannot share certain experiences as to their sacredness, but I know it to be true with every energy of my being. For I have seen its inception since the beginning, and have been side by side with David in witnessing the mighty testimonies and revelations of the Lord. For I know this work is true as surely as the sun shineth in midday, and to deny otherwise would bring me under the condemnation of the Lord God.

The world shall know of the divinity of this work, whether now or later, and every knee shall bow and tongue confess that Jesus is the Christ, the Son of the living God, and that David is indeed this political

Prophet foretold to come forth in this dispensation of the fullness of times before the Second Coming of Christ, to keep this a parallel effort to Christ's restored Church, and to bring people to an awareness of the fullness, and the Great and Mighty work of God. May we wade through deep waters, pass through cold and treacherous mountains, and travel through the vast stretches of the world to proclaim the truthfulness of this work and glorify the Lord. This testimony I leave, and seal with my own blood if need be, even in the sacred name of Jesus Christ.

## To Temple Presidents and Endowed Members: April 6, 2017

### Our Declarations, Witnesses, and Covenants

*I*, David Cassani declare that from 2010 to 2017—for the past seven years, line upon line, I have been ministered to on many occasions—both in our Temples and outside the Temples by John, the same John the Revelator who was translated such that he would remain on the earth to help prepare the world for the Savior's return.

We testify, as a working Council and Presidency, and though we are the simple and the obscure of the earth, that we are called to this work for all the world and that we witness this is assisted by those on the other side of the spiritual veil of this earth. We are also calling in April of 2017, twelve other capable and experienced men and women to help lead this worldwide and local effort. They will be announced on the website as they accept their callings. This is an unfolding Theo-democracy to be made up of local working Councils of Fifty in interested neighborhoods around the world, foreseen by the Prophet Joseph Smith as a parallel organization to the Church of Jesus Christ of Latter-day Saints.

For reasons of agency, practicality, and legality, this is *not endorsed by the Church*, but is to be assisted and lead by endowed members on earth,

who covenant and volunteer of their own free will and choice to be faithful in learning and carrying out this work of becoming latter-day community leaders, and in the language of the Temples—Kings and Queens, Priests and Priestesses, even servant leaders as Jesus Christ would serve. This is a service to find and share simple ways of life for food producing communities around the world. Cooperative efforts can begin now, with endowed members around the world sharing, building this website, consecrating, cooperative purchasing and general shared support.

As endowed leaders, you are called to help lead this work. Consecrate to your local bishops your all, and if needed counsel with him regarding your donations to this work. As volunteers, you may serve this work in your own homes or as circumstance permit, leading these local Councils. Example is always the first way to lead. The influence of simple ways of life, and with the power of covenants made in our temples, you can help bring the influence of this spirit to support this cause.

I declare, in the year 2000, the future calling came to me to be the Prophetic figure to lead this organization—a calling given to me with **great** power and authority. As an insignificant and obscure person to the world, I had no idea at that time of a Political Kingdom of God to be set up prior to the Second Coming. The vision was rejected by most of those close to me as delusional, yet I could not deny it and felt over time more direction would come. Ten years later, in 2010, two names were given to me—one for the Political Kingdom of God, as was one for the Kingdom of God within.

We call upon endowed Saints to offer your support. In due time, and with a leadership quorum of twelve men and women, this Political Kingdom will be organized to assist in developing Simple Living Centers and starting Habitat for Health International as an organization to serve interested communities worldwide—with a commission to help produce healthy food locally, working as needed as a sister organization to Habitat for Humanity in building local neighborhood education centers. Please share your feelings about this work with us if you feel to.

We declare, this is a temple building effort for

for a future time, but spiritually a temple building effort for now—that is our temples within. The new name given to me was **Simple Living Centers**. The existing name was Habitat, or Habitat for Health. Simple Living Centers is both a name for the Kingdom of God within along with a name for buildings and neighborhood educational centers intended to help parents teach about the seven centers of our spiritual anatomy (our temples) and how to produce enjoyable living foods; and ways to assist with healing foods, with clearing generational sins or influences in our bodies. We testify this is a marvelous work for the world. The Arts, Sciences, and all areas of learning will surely enhance this movement and be part of these centers.

It has been revealed, these centers are to be created in three phases to support parents in teaching their children. The first phase being in your home with invited neighbors, the second for neighbors in a rental facility managed by councils, and the third phase being permanently constructed facilities for neighborhoods. This work has unfolded in many ways with pilot efforts back in 1997, and more recently with projects in Taiwan. We learned a great deal and can all learn from one another in this work.

Support and tools in these neighborhood learning centers are being developed and refined by a few endowed members of the Church now and we invite worldwide support and contributions working together in this shared leadership, grass roots effort.

As neighborhood or apartment organizations and Councils develop, neighborhood Councils of Fifty will likely consist of both endowed members and neighbors working together toward a common cause. These neighborhoods will be supported by Habitat for Health campaigns raising community wide funds to transition rural, suburban or urban settings to local food production by building these neighborhood facilities called *Simple Living Centers*. Simple Living Centers are to be perhaps 5-10,000 square foot facilities or remodeled buildings, perhaps even existing churches—built or rebuilt that they may one day be turned into temples. I have been shown key fiscal ways by those on the other side,

regarding how this town transition can be done by a small group of people, assisted by an international organization. I also now realize why the Lord had me leave one job then another over the last 20 years, working for Keith Stepans, past head of Temple Construction, and my senior director while working at the State Capitol. In addition, I have been blessed to be involved with major historical renovations, and the renovation or new construction of 17 major commercial and residential projects, totaling over 300M in Construction costs.

Practically speaking, once towns have completed the transition to mostly local food production, and once homes are experienced in teaching these skills with living foods, these facilities will have served their useful life and may be turned into temples if the Church chooses such or as the end of nations comes because of mankind's own self destructive ways.

Neighborhood Councils can be a great support for mothers in teaching their children in the home, in addition to using neighborhood Simple Living Centers. These Councils also serve interested communities and develop a world-wide community doing this. This is part of developing “A World for Health” education program that may also develop as a parallel effort in these neighborhood *Simple Living Centers*.

It has been revealed that *A World for Health* is a worldwide educational network of local institutes planned and intended as a no-debt, work your way through—or barter education system for youth and adults of all ages, offering both new options in working with high school and college programs. This is to be led by endowed Latter-day Saint volunteers, to support Aaronic Priesthood men and Young Women, and all youth to learn at the side of their mothers; and over time have an education team working in councils with parents or trusted religious and community leaders as they develop new options in education to support these communities and town transition efforts.

Also revealed in the summer of 2010, in the

Timpanogos Temple by John the Revelator were the three key fiscal parts of this as follows: \$3/day donation patterned after Habitat for Humanity, where 90% stay local and 10% of local donations go to the international effort. A barter system or a dollar a day for 8 weeks to fund a no debt educational system. A micro loan program managed locally and supported internationally to help neighbors in need.

As endowed community leaders, we can develop new inspired models of agency education and approaches to learning, virtually unknown to the public today and lost in consequence of mankind's inability to understand the Living Constitution within as referred to by the Prophet Joseph Smith. Models to restore this understanding of the Kingdom of God within, agency based education, and a return to the simple ways of life or simple ways of God are truly a key part of this movement and has been a marvelous work and a wonder to see unfold with these pilot efforts.

As the politics and economics of the world fail in the complexity and confusion of our time, this work will have a profound impact in blessing lives with regards to health, education, and political and economic ways to work with others. In addition, this is to be a path for developing towns as they choose to transition to more sustainable homes, apartment complexes, and neighborhoods. In line with this are efforts in assisting the poor, and providing vital support for refugees, as found in the *Simple Living Centers* website. Brothers and Sisters, we have been doing this and testify of the powers of Heaven assisting us, and the joy and reality of this everyday work.

We believe this work is in accordance with statements from Jesus Christ himself, and with modern day revelation as found in the Doctrine and Covenants and General Conference talks. We are commissioned to organize with plans to seek your prayerful support, suggestions of leaders, and development of materials to start Habitat for Health by September of 2017. With that support, we will help conduct with you town wide educational campaigns to raise awareness and raise funds through entire communities to help those in need, to build these more sustainable neighborhoods and

communities with local Simple Living Center facilities to serve one another and neighbors in need.

Habitat for Health will be set up to assist with this town wide fundraising campaign and work with interested Habitat Humanity organizations, that will organize neighbors and contractors in building these facilities. As endowed members fully consecrate their all and make Bishops aware of their resources, the Church organization and resources of members worldwide will truly lead this effort. This work can unfold as a separate yet parallel effort to the Church. We testify this organizational structure has come through inspiration and revelation and more pieces and added clarity are likely to come. We declare that we remain amenable to the Church leaders—open to correction and suggestions, knowing this is not endorsed legally by the Church, and yet solemnly supported by endowed members of the Church with sacred funds.

We as a Council call upon endowed members worldwide, to listen within, attend the temple, and seek confirmations above and from the activities on the earth, as you consider supporting this work, learning about it through the website or through workshop Councils.

Workshops will be offered in Nauvoo, across the USA as possible, from Taiwan, and online throughout the world to assist you with this work. We are here to serve, to bless and assist you in applying true and virtuous principles of the heavens and of this earth as we work to produce local foods; to understand the power of living foods, and support efforts to build these facilities. This is simply a work to love one another and to help neighbors in need.

Support for families and mothers to have peaceful times to teach and raise their children in the home and community is a key priority in this work. The Heavens will support mothers returning to a simple way of life, and fathers and communities working together in the full law of consecration to provide ways that more families and specifically mothers can teach their children in their homes and with the support of neighborhood Simple Living Centers. We are doing this, seeing miracles as we do.

Situations do not always work out ideally at first. We understand, and yet encourage you to find

inspired ways to view life and options that bring peace within you, as that peace will assist you in bringing added guidance as you consider individual needs. Through personal agency, with no legal binding relations, yet recognizing the power of spiritual covenants, all endowed members that have a witness of this are encouraged to Council with their bishop as needed in respect to resources of the Church, needs of neighbors, resources of Councils of Fifty, and other matters that require this parallel relationship to work appropriately and legally.

Our solemn witness is the Heavens are guiding this work, as are many of our ancestors supporting it. This is the work of Elijah, turning hearts, healing hearts and a work to continue through the millennial reign of Jesus the Christ. As a Presidency, we are calling twelve to join this Presidency and First Council of Fifty and will be

#### THE FIRST PRESIDENCY

*David A. Cassani*

*Christopher W. Caldwell*

reporting back to all endowed members on this website of those accepting calls.

We solemnly testify, in the name of Jesus Christ our King, our Savior, and the very Head of our Church today, that He is guiding this First Presidency of His Political Kingdom or Council of Fifty, that He does so through our very Kingdom within us, or Living Constitution within as we follow the path of peace—keeping this work a parallel effort to the Church of Jesus Christ of Latter-day Saints, so directed at this time through a modern day Prophet even Thomas S. Monson, the only one holding all the keys on earth today, for directing the First Presidency, and the Quorum of the Twelve Apostles and through endowed members, this work to all the world. We so solemnly testify, warn, and admonish you to prayerfully consider this work, in the sacred name of Jesus Christ.
