(*below-left*)

Lakeland Mills Company History & Profile

Lakeland Mills was founded in 1928 in Holly, Michigan. In the summer of 1996 the company moved into a new manufacturing plant in Edmore Michigan. The new plant was necessary to keep up with the rapid growth under the current ownership.

There are many reasons for Lakeland's success. First we have many dedicated long-term employees. Steady, planned growth with goals met year after year, have afforded credibility with lenders and customers. Consistent quality products and yearly innovations have enabled us to gain positive recognition in the marketplace.

We believe we are the oldest continuous producer of log furniture in the U.S. Our plant employs many employees who pride themselves in producing high quality products at the lowest possible cost.

Over the years we have worked to improve, redesign, and develop our styles to the point that we are confident each season that we are offering the most sought after styles. Shipments deliver in heavy-duty cardboard cartons, which is essential to perfect delivery conditions. Satisfaction is guaranteed.

By avoiding the low-end products that are unsatisfactory in use, we have built a name known for quality and consumer satisfaction. Our mission will be to continue to supply beautiful wooden furniture perfectly designed for their purpose at the most competitive price.

Our Customer Service Team

Our extraordinary customer service is the backbone of our product guarantee. A real live person is available more than 40 hours per week to ship replacement parts, answer questions, receive feedback, poll customers' opinions, and to walk them through assembly, if needed. This daily consumer contact has given us the edge in understanding what customers want.

Calvin Hunt-Owner of Lakeland Mills, Inc. Over 30 years of experience has established Lakeland Mills as one of the leading log furniture manufacturers.

Dana Leiter-Customer Service Assistant. Over 20 years of experience as a general laborer and supervision offers qualified assistance and knowledge needed to best serve our customers.

Lakeland Mill's Product Warranty

Our products are guaranteed to arrive to the customer in satisfactory condition, free of manufacturing defects. Defectives, shortages, and /or damage other than shipping damage must be reported to 800-427-5136 within 14 business days of receipt of goods. Concealed shipping damage must be reported immediately. Lakeland Mills representatives will then determine the proper handling of a claim, depending upon the nature of the problem, by one of the following methods:

- (1) By replacement;
- (2) By return for inspection, with credit issued as determined by that inspection;
- (3) By issuing an order to destroy with proper credit allowed.

Furthermore, our cedar log products are guaranteed to perform free of manufacturing defects for 1 year after the date of purchase. Should they fail to do so, Lakeland Mills will provide any necessary components free of charge to repair a nonfunctional unit.

Understanding the importance of going “GREEN”, Lakeland Mills uses logs, which are a by-product of the log home industry. This allows us to offer our customers quality products at an affordable price, while helping conserve our environment.

Mattress Not Included

Characteristics of Log Furniture

All Log furniture is subject to the natural process of "checking". Checking, or cracking, happens as wood releases moisture, and normally occurs across or through the annual growth rings. It is the usual result of wood seasoning. Your safety and satisfaction is of most importance to us.

Checking occurs mainly on the surface of the wood and does not affect the structural performance or integrity of the wood. This natural process adds to the uniqueness of the pieces and lends it that certain rustic appeal that has become so popular in home and garden décor. The degree of checking will vary from product to product and from log to log.

With rustic furniture imperfections in the wood, such as checking and knots are expected. Checking can range from very slight slivers to cracks running the full length of the log to the heart (middle of the log) of the wood. In either case this checking is completely normal and in no way affects the integrity of the wood or the strength of the furniture.

Lakeland Mills & Customer Service

Lakeland Mills has an excellent customer service department so you don't need to know all the answers to your customers questions. We are happy to take customer calls Monday through Thursday 8:30 a.m. to 5:00 p.m., and Friday from 8:30 a.m. to 4:00 p.m., Eastern Standard Time.

Lakeland Mill is located in Michigan's heartland village of Edmore. Through contact with our customers we have gained an understanding of what consumers want in furniture.

Why Lakeland Mills Furniture?

Quality:

- Each employee is extensively trained on each piece of furniture and the quality that is expected.
- We have many long term employees who take pride in producing quality products.
- Don't be fooled by light weight imitations. We have the best quality and comfort in the business.

Domestic Company:

- Consumers want products made in the United States.
- Inventory control-We can respond quickly to consumer demands, within the same selling season.
- Quality-Made in the U.S. means quality again! Customers are willing to pay for quality!

Our furniture is produced in the United States. Our customer service department is located in the United States and staffed by people who know our products.

Environmentally Friendly: Our environment is extremely important to us. We have proven this in the following ways:

- We use leftover logs from the log home industry.
- We use less energy by burning scrap wood to fire our kiln and supplement the heat in our plant.
- We have implemented soft starts which reduces our energy consumption.
