Integrated Pillars Approach

A method for streamlining STEM curriculum selection and planning.

Main Focus

The core concepts explcitly taught across the unit.

STEM Program that balances depth and breadth!

Subfocus

K

A smaller concept explicitly taught for 1-2 lessons.

Consolidation

Focus

A previously taught concept that is now practised in a new context.

STEM Educator Hub © www.stemeducatorhub.com

Each focus should be selected from a different pillar of STEM: Knowledge, Tools and Skills.
