& DRAWER

# Welcome to the Art of Cal Door & Drawer

My inspiration on the pages that follow was to provide a fresh look at current trends while still showing some time-honored traditions.

In the past, we would fill the pages of our catalog with as many doors as possible to showcase our huge variety of styles. Now that we have grown to offer thousands of amazing products and options, we simply can't fit them all in one catalog!

I invite you to visit our website ([caldoor.com](http://caldoor.com)), where you will find Galleries that display all of our Doors, Drawer Boxes, Moldings, and Architectural designs which are truly works of art.

RECONSTITUTED WOOD VENEERS

Echo Wood reconstituted veneer products echo nature's most desired and rare species without impacting the sustainability of the great old growth forests. This provides endless opportunities to create the look of domestic, exotic and rare species.

# History

When I started Cal Door over 30 years ago, it was with one goal in mind: to build the best wood products possible. I would never sacrifice quality or service for price.

Staying true to those values, we have grown to become one of the largest custom wood product companies in the nation. We now service over 10,000 customers and work in state-of-the-art facilities you can view online.

We offer thousands of design options built by hundreds of amazingly talented and dedicated employees that I call family. Our family would not exist if not for you, our customers. We appreciate that—and expect to earn the trust you show in us with your business every day.

Please visit our website at [caldoor.com](http://caldoor.com) and see what our family can do for you!
