# MEET THE *Baker*

My love of baking began many years ago, creating cakes for friends, family, and charity events. I launched A Little Bit Naughty in 2013, and what started as a creative hobby soon became a true passion. In 2019, I made the decision to leave my IT career behind and focus on cake design full time, and in 2022 I was proud to open my own professional bakery kitchen at home.

At the beginning of 2023, I faced an unexpected breast cancer diagnosis. Although it was a challenging year, baking remained a constant source of comfort and creativity throughout my treatment. I'm incredibly grateful to have received the all clear in January 2024 and am now back to full health – embracing life, creativity, and of course, even more cake making.

Today, I create luxury wedding cakes for couples across Sussex, Kent, London, Surrey and beyond.

Every cake is handcrafted with care, exceptional attention to detail, and the finest ingredients, ensuring your cake feels as special and memorable as the day itself.

# THE DESIGN *Process*

## 1 INSPIRATION

We begin with your vision, covering everything from colours and floral arrangements to textures, styling, and venue specifics. My aim is to craft a stunning wedding cake that will leave your guests in awe.

## 2 DESIGN & CREATION

Your bespoke cake is thoughtfully designed, expertly crafted, delivered, and beautifully set up at your venue. Every detail is carefully considered to ensure your cake is as memorable as your wedding day itself.

I will also design a personalised cake menu that perfectly complements your theme and wedding stationery.

## 3 PERSONAL TOUCHES

For couples who wish to add a personal touch, bespoke details such as handcrafted bride and groom figures or subtle tributes to much-loved pets can be incorporated into your cake design — like Reggie the pug, pictured here, one of my all-time favourites.

“I take care of every detail, so you can relax and enjoy your day.”

## ELEGANT ROMANCE

For couples drawn to timeless elegance, classic fondant designs with beautiful textures such as delicate stencilling and cake lace offer a refined and romantic finish that remains effortlessly on trend.

## RUSTIC CHARM

Semi-naked and rustic buttercream cakes are a popular choice for a relaxed, natural look and can be ideal for couples mindful of their budget. For something a little different, my signature tree stump cakes offer a distinctive rustic alternative.

## FLAWLESS FROM START TO FINISH!

Michelle was absolutely amazing with our wedding cake. She immediately made us feel at ease and supported us through the wedding cake design process. Michelle provided a range of delicious different tasters and even provided us second samples when we still weren't sure, which made choosing our flavours so easy. She even went out of her way to provide gluten free cupcakes for my sister to ensure that everyone was included. She honestly is the most amazing and lovely lady and to top it off her cakes are DELICIOUS! Michelle's communication was perfect throughout and we could not have asked for a better experience, thank you. The final cake was even better than we imagined—she truly exceeded our expectations!   *Daisy Ramsden*

## AMAZING CAKE AND SERVICE!

I cannot recommend Michelle enough when it comes to cakes, firstly her customer service is absolutely amazing, she's an absolute pleasure to talk to and she replies quickly! When we walked in to our reception room and saw our cake we were absolutely over the moon, it was the most beautiful cake I have ever seen, she listened to my vision and she brought it to life perfectly. When the cake was cut and we ate some I can happily say it was the nicest cake I have ever eaten, we had a three tier cake in three different flavours and each tier tasted absolutely amazing, we were sad when there was none left because it meant we couldn't eat anymore! I will definitely be ordering through Michelle again for birthdays and other events.  *Zena Barber*
