

Press Release from Community Life Enrichment Foundation (West View HUB)

May 15, 2023

On June 7th at 5PM, the West View HUB will hold a ribbon cutting ceremony and celebration for its newest offering, “HUBworks”, an immersive art center located next to the West View HUB library and food pantry. HUBworks will feature a large performance area, a dedicated art room and a professional recording studio. Offerings will include painting classes, acting instruction, music lessons, dance, yoga, illustration classes, robotics and much more. All services from the West View HUB and HUBworks are always free to the community.

In conjunction with the ribbon cutting, the West View HUB will also be celebrating its fourth-year anniversary on June 7, 2023. As a free local library, the HUB focuses on three key areas that include improving academic outcomes for local students, improving health and wellness within the community and strengthening neighborhood vitality.

The HUB has become fully integrated within West View and offers a wide variety of programming that includes “Pass the Class” (a comprehensive academic support program for at-risk students), technology training for seniors, Girls Who Code, get curious (learning opportunities for home-schooled students), Shakespeare competition classes, STEAM club, book clubs, a food pantry (over 600 families receiving food) and much more.

Please join us for this special event and celebration as we dedicate this new facility and celebrate four years of serving this special community.
