Assessment: Twin County Community Probation Center is committed to detecting and preventing sexual harassment and sexual abuse in our facility. Staff training and education is a key component in prevention efforts. Policies and procedures are in place and Twin County Community Probation Center will continue to take steps to ensure the safety of our staff and clients. The resident intake provides clear information about the zero tolerance policy and the definitions of sexual abuse and harassment. Residents are provided with multiple avenues in which to report concerns. There was a decrease in overall reports in 2023 compared to 2022. There were a total of 0 allegations made in 2023. All allegations of sexual abuse or harassment that are reported will be investigated per Twin County Community Probation Center policy and PREA standards.

Areas of Improvement: Twin County Community Probation Center will continue its efforts to educate staff and residents about sexual assault and harassment and our zero tolerance policy. The Michigan Department of Corrections released new PREA training in 2023 that was required for all staff. This training provided an additional tool to ensure staff is fully aware of their obligations under PREA.

Corrective Actions: Education continues to be an area of focus for both staff and residents. Constant, consistent communication is key to educating residents about the seriousness of PREA. It is also a key component in the ongoing training of staff. New training tools are being evaluated on an ongoing basis and assigned to staff.
