Assessment: Twin County Community Probation Center is committed to detecting and preventing sexual harassment and sexual abuse in our facility. Staff training and education is a key component in prevention efforts. Policies and procedures are in place and Twin County Community Probation Center will continue to take steps to ensure the safety of our staff and clients. The resident intake provides clear information about the zero tolerance policy and the definitions of sexual abuse and harassment. Residents are provided with multiple avenues in which to report concerns. There was no increase in overall reports in 2025 compared with 2024. There was a total of 1 allegation made in 2025. All allegations of sexual abuse or harassment that are reported will be investigated per Twin County Community Probation Center policy and PREA standards. There was 1 unfounded allegation of sexual harassment between two residents. The proper authorities were notified and responded to the incident. The victim did not proceed with charges and the case was closed.

Areas of Improvement: Twin County Community Probation Center will continue its efforts to educate staff and residents about sexual assault and harassment and our zero tolerance policy. The Michigan Department of Corrections released new PREA training in 2025 that was required for all staff. This training provided an additional tool to ensure staff is fully aware of their obligations under PREA.

Corrective Actions: Education continues to be an area of focus for both staff and residents. Constant, consistent communication is key to educating residents about the seriousness of PREA. It is also a key component in the ongoing training of staff. New training tools are being evaluated on an ongoing basis and assigned to staff.
