Capital Protection Group (CPG) was founded by two Sacramento Locals. Stornaiuolo, a Sacramento State Alum and Offensive Lineman for the Hornets found his calling in the security field in 2013. Along with CPG he is the Director of Security for one of BART's biggest construction projects in the Bay Area in the last

50 years. Schubert has been in the local Bar/Service Industry for over 22 years with mentoring partners such as Randy Paragary, Trevor Shults and Bob Simpson. With over 35 years of combined security experience, the two partners formed CPG in 2019 with hopes to provide a new brand of Private Security for every type of

business. Stornaiuolo and Schubert envisioned a business model with personnel that were not merely well trained, respectful, courteous, and professional, but take tremendous pride in the way they present themselves, prioritizing CPG's appearance standards. With any business, CPG understands that the security staff is a direct extension of the companies that hire the firm. Whether CPG is securing a Local Nightclub, Commercial Construction Site, Visiting VIP or a Political Rally on the steps of the Capitol, The security firm provides exceptional service while holding themselves to

the highest of standards as well as how they present themselves. With clients that range from Mix Downtown, Park Ultra Lounge and Delta King Hotel to The Von Housen Automotive Group, Avenue 5 and Colliers International, CPG is rapidly expanding and providing employment for upwards of 40 young men and women. They hope to staff 100+ officers by the end of 2023. Capital Protection Group is committed to building a staff that reflects the incredibly diverse Sacramento Community in which they serve.
