The primary source of funding for the Ohio Division of Wildlife comes from the sale of hunting and fishing licenses, federal excise taxes on hunting, fishing, and shooting equipment, capital bond dollars, and donations from the public. We care about all wildlife and maintaining stable, healthy wildlife populations. Our challenge is to balance the needs of wildlife, habitat, and people.

You can carry only one HUNTING implement while hunting deer. (See Concealed Handguns on page 34)

A DEER HUNTER MAY DO THE FOLLOWING:

1. A successful deer hunter may aid or assist another hunter who is hunting deer if the deer permit has been filled in, he or she does not carry any hunting implement commonly used to kill wild animals, and has a valid hunting license. Those persons exempted from having a hunting license and deer permits for deer hunting on their property are required to have a hunting license and deer permit to aid another hunter off of their property or hunt deer off of their property.
2. Take more than one deer per day as long as the harvested animal's information has been recorded on the permit or submitted to game check.
3. Hunt deer over bait, except on public hunting areas and in the Disease Surveillance Area. Restrictions apply, see pages 10, 11, 34, and 36.
4. Carry a printed or electronic copy of the deer permit.
5. Possess a communication device.
6. Use a leashed dog to recover a wounded deer.
7. Leave a deer or deer parts with a taxidermist, fur buyer, cold storage, locker plant, or meat processing plant as long as the confirmation code is attached to the animal and all of its separate parts. Persons receiving a deer from another person must keep the confirmation code with the animal and all of its separate parts.
8. Archery hunt during the youth deer gun season, if the archery hunter is not accompanying a hunter participating in the youth deer gun season and is visibly wearing hunter orange.
9. Aerial drones may be used to aid in the recovery of a deer, provided that no one involved in the recovery is carrying a hunting device at the time. If the deer is found alive, the use of the drone will be discontinued before hunting can resume. In this limited case, the drone operator may provide the location where the deer was last located by the drone. See wildohio.gov for additional information. All other uses of a drone or aircraft to hunt or aid in the hunting of deer are unlawful.

A DEER HUNTER MAY NOT DO THE FOLLOWING:

1. Pursue wounded deer or recover dead deer, including shed antlers, from private property without the written permission of the landowner.
2. Hunt with a shotgun or straight-walled cartridge rifle loaded with more than three shells in the chamber and magazine combined. This does not apply to handguns.
3. Possess a loaded firearm during any of the deer firearms seasons at any time other than 30 minutes before sunrise to 30 minutes after sunset. Muzzleloading firearms are considered unloaded when the cap is removed or priming powder is removed from the pan, or when the battery is removed on electronic systems.
4. Use a muzzleloading handgun to hunt deer.
5. Have more than one hunting firearm while hunting deer.
6. Have attached to a longbow or crossbow any mechanical, electrical, or electronic device capable of projecting a visible beam of light. This does not include a device such as a range finder that utilizes nonvisible light.
7. Possess shotshells containing shot during any deer gun season.
8. Use dogs to hunt deer.
9. Check a deer using a permit that was purchased after the animal was harvested.
10. Construct, place, or use a permanent-type tree stand, or place spikes, nails, wires, or other metal objects into a tree to act as steps or to hold a tree stand on public hunting lands. It is also unlawful to make any of these changes to trees on private property without first getting the permission of the landowner or the landowner's authorized agent.
11. Check a deer as a landowner if the hunter is a tenant of the property, unless the tenant is an individual who resides on land for which he or she pays rent and whose annual income is primarily derived from agricultural production conducted on that land.
12. Submit a game check under the account of anyone other than the hunter who harvested the animal.
13. Carry a firearm while deer hunting with a longbow or crossbow (except when legally carrying a concealed handgun, See CONCEALED HANDGUN on page 34).

CHRONIC WASTING DISEASE

KNOW THE FACTS

Scan the QR code with your mobile device for current information ►

Chronic Wasting Disease (CWD) is a fatal neurological disease of white-tailed deer. There is no strong evidence that CWD is transmissible to humans. In December 2020, Ohio confirmed its first CWD-positive wild deer in Wyandot County. Additional cases have been confirmed in every year since 2020.

To monitor the prevalence of and implement regulations to slow the spread of the disease, a Disease Surveillance Area (DSA) has been established and includes all of Hardin, Marion, and Wyandot counties; Auglaize, Bath, Jackson, Monroe, Perry, and Richland townships in Allen County; Bucyrus, Dallas, and Tod townships in Crawford County; Marlboro, Oxford, and Troy townships in Delaware County; Delaware and Madison townships in Hancock County; Westfield Township in Morrow County; and Claibourne and Jackson townships in Union County. Special rules apply to deer hunting in these counties and townships.

DSA RULES INCLUDE:

- The placement of or use of bait (salt, minerals, or any food) to attract or feed deer within the Disease Surveillance Area (DSA) boundaries is prohibited, as is the hunting of deer by the aid of bait.
- Normal agricultural activities, including feeding domestic animals, as well as hunting deer over food plots, naturally occurring or cultivated plants, and agricultural crops are not prohibited in the DSA.

PROTECT OHIO'S DEER HERD

- Properly dispose of a deer carcass. Be sure to double-bag all high-risk parts (brain, spinal cord, eyes, and lymphoid tissues) and dispose of them with your household trash.
- It is illegal to bring high-risk carcass parts into Ohio from anywhere outside the state, or to remove high-risk carcass parts from a disease surveillance area, unless the animal is delivered to a Division of Wildlife certified processor or taxidermist authorized to handle these carcass parts within 24 hours (see Deer Carcass Regulations on page 11).
- Contact a Division of Wildlife district office or state wildlife officer if you see a deer that appears sick, is acting abnormally, or has a visible ear tag.

PRECAUTIONS FOR HUNTERS

A deer infected with CWD typically does not immediately show signs of the disease. As the disease progresses, the animal begins to lose body condition and stagger, carry its head and ears lowered, drool excessively, and show little fear of humans. They will eventually appear weak and emaciated.

- Wear rubber gloves when field-dressing and thoroughly wash your hands and instruments after field-dressing and butchering.
- Bone out the meat from your animal and minimize the handling of brain and spinal tissues.
- Do not eat the brain, spinal cord, eyes, spleen, tonsils, and lymph nodes.
- Do not consume meat from any animal that tests positive for CWD.
- Hunters that have successfully harvested a deer may have it tested for CWD at the Ohio Department of Agriculture's Animal Disease Diagnostic Laboratory. Call (614) 728-6220 for more information.

DISEASE SURVEILLANCE AREA (DSA)

DSA: All of Hardin, Marion, and Wyandot counties; Auglaize, Bath, Jackson, Monroe, Perry, and Richland townships in Allen County; Bucyrus, Dallas, and Tod townships in Crawford County; Marlboro, Oxford, and Troy townships in Delaware County; Delaware and Madison townships in Hancock County; Westfield Township in Morrow County; and Claibourne and Jackson townships in Union County.

MANDATORY SAMPLING FOR DEER HARVESTED WITHIN THE DISEASE SURVEILLANCE AREA (DSA)

- Mandatory sampling is required for ALL deer harvested Oct. 11-12 and Dec. 1-2. Staffed sampling locations will be available during the mandatory sampling days at the addresses below.

Hunters can utilize self-serve kiosks to drop their deer off for testing throughout the deer season. Participation is voluntary outside of the four mandatory days noted above. Kiosk locations and dates of operation are available at wildohio.gov and instructions for sample submission will be provided at the kiosk.

DEER CARCASS REGULATIONS

To minimize risk of spreading CWD, possessing high-risk carcass parts from Cervids (deer, moose, elk, and caribou) harvested anywhere outside of Ohio or removed from a disease surveillance area is prohibited.

Only the following parts may be possessed from any Cervid imported from anywhere outside of Ohio or removed from a disease surveillance area: de-boned meat; meat that is cut and securely wrapped either commercially or privately with no part of the spinal column or head attached; quarters or other portions of meat with no part of the spinal column or head attached; antlers; antlers attached to a skull cap from which all soft tissue has been removed; upper canine teeth from which all soft tissue has been removed; hides and capes without any part of the head or lymph nodes attached; finished taxidermy mounts; and soft body tissue wrapped and packaged for use by a diagnostic research laboratory.

Out of state hunters traveling through Ohio may possess any Cervid carcass (or part of a carcass), provided the carcass or parts are not off-loaded from the vehicle.

Hunters returning to Ohio with a complete Cervid carcass or parts NOT on the list above, as well as hunters who wish to move a complete carcass or parts NOT on the list above, out of Disease Surveillance Areas, may do so provided that they present the complete carcass or parts not listed above to a certified processor or taxidermist authorized to handle these carcass parts within 24 hours of entering the state or leaving a Disease Surveillance Area.

GAME CHECK

All hunters who harvest a white-tailed deer or wild turkey are required to complete the game check process.

For deer, the hunter must complete the game check process and receive a confirmation code by noon the day after the kill. If the deer is killed on the last day of a season, it must be checked in by 11:30 p.m. on the day of the kill. For wild turkey, the hunter must complete the game check process and receive a confirmation code by 11:30 p.m. on the same day it was killed.

FILL IN THE PERMIT OR TAG

- Fill in the deer or wild turkey permit immediately upon harvest and prior to moving the carcass with the date, time and county of kill. Submitting through the Division of Wildlife's mobile application fulfills this requirement. **A temporary tag or mobile photo of a permit does not fulfill this requirement.** The game must be tagged once the hunter leaves the animal unattended or arrives at a residence or temporary lodging.
- Exempt landowners are required to make a tag and include their name, date, time, and county of kill. Submitting through the Division of Wildlife's mobile application fulfills this requirement. The tag may remain unattached until the hunter leaves the animal unattended or arrives at a residence or temporary lodging.
- Once the hunter leaves the game unattended, the completed permit or tag, or confirmation code, must be attached. The permit or confirmation code is required to remain with the game at all times.

Regardless of game check method, the hunter must provide the 10-digit permit number, which is printed in large numbers on every permit. Exempt landowners do not need to provide a permit number.

The hunter must answer a series of questions. The hunter will be issued a confirmation code at the end of the process.

The confirmation code may be written on the corresponding permit or tag and attached to the game. When a hunter checks a deer or wild turkey by internet, agent, or mobile application, they will receive a game check receipt with their confirmation code printed on it. Hunters using the telephone game check method will receive the confirmation code over the phone. Hunters using the Division of Wildlife's mobile application will receive their confirmation code once their phone has service.

The confirmation code must remain attached to the game and its parts. The code may be written on the back or bottom of a mount.

A game check receipt may be printed by accessing Ohio's Wildlife Licensing System at ohiogamecheck.com after the game check process is complete.

The game check process must be completed prior to skinning or removing the head from a deer, and prior to removing the feet, beard, meat, or feathers from a wild turkey. This does not include field dressing.

OTTER TRAPPING TOTAL SEASON BAG LIMIT – 3

ZONE B – 1

ZONE A – 3

FIRST-TIME TRAPPERS

All first-time trappers, except apprentice license buyers, must successfully complete a hunter and a trapper education course offered through the Division of Wildlife before purchasing a hunting license and fur taker permit to trap furbearers.

RIVER OTTER CHECKING AND TAGGING REQUIREMENTS

The pelt of each harvested river otter is required to be checked in and tagged within five business days of take. The pelt may be checked and tagged by a wildlife officer (by appointment), at a designated otter check station (by appointment, go to wildohio.gov for locations), or at a district office (by appointment, call 1-800-WILDLIFE (800-945-3543) to schedule). All state offices are closed on holidays.

Each trapper must personally present their own river otter, and may not present a river otter taken by another person. Trappers must also provide a copy of their fur taker permit at the time of checking, and provide information about the date and location in which the river otter was trapped.

AVOIDANCE TECHNIQUES

Trappers who have reached the river otter bag limit are encouraged to implement river otter avoidance techniques while beaver trapping.

If you catch an otter in excess of your season bag limit and it is still alive, carefully release it without causing injury to yourself or the animal. If the otter is dead, leave it in the trap and contact the wildlife officer assigned to that county.

BEAVER AND OTTER TRAPPING ON PUBLIC HUNTING AREAS

Beaver and river otter trapping is prohibited on state managed areas, including state wildlife areas, state parks, and state forests without a special beaver and/or river otter trapping permit from the Division of Wildlife.

RIVER OTTER AND GRAY FOX CARCASS COLLECTION

The Division of Wildlife is partnering with The Ohio State University to research and monitor population trends in river otters and gray foxes in Ohio. Harvested or roadkill carcasses are requested to be turned in to aid in this research. Carcasses also provide valuable information on age and reproductive patterns, disease prevalence, diet, and other factors. Contact 1-800-WILDLIFE (1-800-945-3543) for more information.

ORDER ONLINE TO GET SIX ISSUES FOR ONLY \$5

Go to wildohio.gov to sign up online, or visit any store that sells hunting licenses and sign up to have the magazine mailed to you.

TRAPPERS MAY DO THE FOLLOWING:

1. Set, use, and maintain snares for the purpose of taking furbearing animals. All snares must have a relaxing lock and a stop to prevent the opening of the snare from closing to less than 2½ inches in diameter, or a relaxing lock system with a breaking point of not greater than 350 pounds.

CONTROLLED HUNTING & TRAPPING OPPORTUNITIES

TYPE	SPECIES	APPLICATION METHOD	APPLICATION PERIOD
Hunting	Turkey	online/phone	March 1 - March 31
	Deer, Small Game, Dove, Waterfowl, and Waterfowl Blind	online/phone	July 1 - July 31
Trapping	Beaver, Otter, and Furbearer	in-person	October 4 , 2025 (1 day)

Controlled access lotteries offer a unique opportunities for you to pursue several different species across the state on areas not normally open to hunting and trapping. Successful applicants will receive a permit, rules, and a hunting area map. Permits are offered for dove, quail, waterfowl, white-tailed deer, ring-necked pheasant, small game, and turkey hunting and furbearer trapping. **Controlled access permits may not be bought, sold, bartered, traded, or exchanged.**

CONTROLLED HUNTING

Controlled hunting permits are selected through a **computer-generated** random lottery system. Hunters may apply at wildohio.gov, on the HuntFish OH app, or by calling 1-866-703-1928 with a convenience fee. A non-refundable \$3 application fee applies to each hunt. Customers may apply for more than one hunt but can only apply for each hunt once per year.

All applicants, youth and adult, are required to possess a valid Ohio hunting license and meet age requirements. Youth hunters must be under 18 at the time of the hunt to participate. Adults must be 18 or older at the time of the application.

CONTROLLED DEER HUNTS

Those wishing to apply for controlled deer hunts are required to have a valid deer permit, along with a valid hunting license, at the time of applying. Participants may use a deer management permit during controlled deer hunts. Deer management permits may also be used in controlled hunts not administered by the Division of Wildlife if the entity holding the hunt has received authorization from the chief of the Division of Wildlife. It is the hunter's responsibility to check with the agency administering the hunt to see if deer management per-

mits may be used. A deer harvested during a controlled hunt does not count toward a county and statewide bag limit. Up to six total additional deer may be taken during controlled hunts. Only one antlered deer maybe be taken per season across all regular season dates and controlled hunts.

A transaction fee may apply for online and in-app purchases. All sales are final. No refunds.

THE OHIO CONSERVATION CARD

The Ohio Conservation Card is available with the purchase of a lifetime or multiyear license. Lifetime licenses are only sold at Division of Wildlife offices, online at wildohio.gov, and through a mailed application. Multiyear licenses are available for purchase at license agents.

INTERSTATE WILDLIFE VIOLATOR COMPACT

Ohio is a member of the agreement between states that if a person loses their hunting, trapping, or fishing privileges in one of those states, they may lose those privileges in all of the member states. If you lose your right to hunt, trap, or fish in Ohio, it is your responsibility to check with any other state before you hunt, trap, or fish there to ensure you have not lost your privileges in that state as well.

HUNTER AND TRAPPER EDUCATION

All first-time hunting license buyers, except apprentice license buyers, must successfully complete a hunter education course before purchasing a hunting license. The hunting course is designed to instill a code of ethics and responsibility, as well as provide instruction on guns and how they work, types of ammunition, gun handling, field care of game, wildlife identification, wildlife management, hunting regulations, and other topics. Statistics show that hunter education has helped reduce the number of hunting related injuries and incidents.

Anyone applying for a hunting license is required to successfully complete a hunter education course. Applicants must do one of the following:

- Present a previously held hunting license.
- Present evidence of having successfully completed a hunter education course (from any state).
- Attest they are 21 years of age or older and previously held a legal hunting license (from any state).
- Obtain an apprentice license.

The trapper education course, taken after successful completion of a hunter education course, covers trap set making,

trapping equipment, pelt preparation, furbearer life history, identification, and management. These courses provide an opportunity for adults to introduce another person to hunting and trapping and to share the excitement that goes with it. To obtain a fur taker permit for trapping, applicants must do one of the following:

- Present a previously held trapping license (from any state).
- Present evidence of having successfully completed a trapper education course.
- Attest they are 21 years of age or older and previously held a legal trapping license (from any state).
- Obtain an apprentice permit.

APPRENTICE LICENSE PROGRAM

Ohio residents and nonresidents may purchase an apprentice hunting license or apprentice fur taker permit without having taken a hunter or trapper education course.

Apprentice hunting licenses and apprentice fur taker permits allow new hunters and trappers, both adults and youth, to sample the experience of hunting and trapping under the mentorship of a licensed adult prior to completing a hunter or trapper education course.

To hunt or trap, apprentice license and permit holders must be accompanied by a licensed hunter or trapper 21 years old or older. The licensed hunter may not accompany more than two apprentice license holders at the same time.

Accompany means to go along with another person while staying within a distance from the person that enables uninterrupted, unaided visual and auditory communications.

Having previously held an apprentice license does not qualify the holder to purchase a regular hunting license or fur taker permit. To obtain a regular hunting license, a hunter education course must be successfully completed. To obtain a regular fur taker permit, a hunter education course and trapper education course must be successfully completed. Apprentice licenses and fur taker permits are available to both Ohio residents and nonresidents, youth and adults.

GINSENG

It shall be unlawful to dig, harvest, cut, root up, gather, or otherwise collect wild ginseng from its natural habitat except during the season of Sept. 1 through Dec. 31 of each year without written authorization from the chief of the Division of Wildlife. The landowner's written permission is required of anyone harvesting ginseng in Ohio. Anyone selling ginseng is required to show a state-issued photo identification card at the time of sale.

DOG TRAINING

The Division of Wildlife has established designated dog training areas on some of its wildlife areas. Dogs may not be trained or exercised on state public hunting areas from May 1 through Aug. 31 of each year, except on these designated dog training areas. A hunter may not receive or possess a deer or parts of a deer unless such deer or deer part is tagged as required, or unless the deer or part of a deer has a statement showing when and where legally taken, the date received, and from whom received; or a Division of Wildlife tag, seal,

or certificate or other proof of ownership which shows the deer was killed by a motor vehicle in Ohio; or an official tag or seal and valid nonresident license issued by another state if taken from outside Ohio; or certificate of ownership or receipt issued by a law enforcement officer. Shed antlers do not require a certificate of ownership or receipt by a wildlife officer.

Live furbearing animals, amphibians, reptiles, game quadrupeds, or game birds may not be held in captivity or sold except by propagation permit.

Hides of furbearing animals taken legally during the open season may be sold during that open season or may be held for sale until June 15 following the close of the season.

Furbearers may not be taken alive during open hunting and trapping seasons.

Those who buy green or dried fur must have a fur dealer's permit.

2025-26 OHIO HUNTING & TRAPPING REGULATIONS PUBLIC SHOOTING RANGES

The Ohio Division of Wildlife provides public shooting ranges at state parks, fish hatcheries, wildlife areas, and other locations across Ohio to get you ready for upcoming hunting seasons.

Division of Wildlife shooting ranges are categorized by class, which will help you decide which range best fits your needs; Class A are supervised rifle and pistol target ranges; Class B are unsupervised rifle and pistol target ranges; Class C are unsupervised clay target shotgun ranges; Class D are unsupervised archery target ranges; and Class O are other public ranges not classified by the Division of Wildlife.

All Class A ranges have fully accessible parking, shooting benches, and restroom facilities and are staffed by knowledgeable range attendants. Not all Class B, C, or D ranges have a range attendant or restroom facilities. Anyone age 18 and older who is shooting on Class A, B, and C ranges is required to purchase a shooting range permit. You do not need a permit to visit any of the Division of Wildlife's public archery ranges. Range rules will be posted at the front of the range or shared with you during check-in at Class A, B, and C ranges.

Safety is a priority regardless of which implement you are using. Basic safety rules should be followed at all times when handling firearms or archery equipment.

Those new to gun ranges should consider visiting a Class A range first as there are staff available to assist you. At Class A ranges, you will need to check in and show your range permit. This is also a great time to ask any questions! Choose a bench in the appropriate area of the range. A range attendant or range safety officer can help you determine when to load and unload your implement.

Each year, the Ohio Division of Wildlife offers a free range day which allows anyone to try out Class A, B, and C ranges without purchasing a range permit. On-site instruction by trained firearms staff is also available at select locations.

SUPERVISED HOURS OF OPERATION

Hours of operation vary and can be found at wildohio.gov. All Class A ranges are open Wednesday through Sunday. All Class A ranges are closed on the following dates: New Year's Day, Easter, Juneteenth, Independence Day, Thanksgiving, and Christmas Day.

CLASS A, B, AND C RANGES

All persons age 18 and older are required to purchase a shooting range permit. Those age 17 and younger are not required to purchase a permit, but must be accompanied by an adult (age 18 and older) holding a valid range permit.

These permits can be purchased at wildohio.gov, on the HuntFish OH app, at all license agents, and at Division of Wildlife district offices.

One-year and one-day range permits may be printed or displayed on a mobile device. Select ranges have handicap accessible parking, shooting benches, and restrooms. If interested, please contact the individual location for details.

CLASS D SHOOTING RANGES

No permit is required to shoot at Class D ranges.

HUNTER EDUCATION

The Division of Wildlife offers two types of hunter certification courses:

- Instructor-led training.
- Online testing for residents 12 and older.

While hunter education is a vital part of becoming an Ohio hunter, new hunters also have the option of hunting with an apprentice license before taking a hunter education course.
