

Quickstart Program

To provide eligible patients with temporary **access to free doses** of the Program Product while their healthcare provider actively pursues insurance coverage, ensuring continuity of care and minimizing delays in starting treatment.

1 Eligibility

On-Label Diagnosis

- **For Prurigo Nodularis:** ≥18 years
- **For Atopic Dermatitis:** ≥12 years

Insurance

- Must have **commercial insurance**
- No government insurance (e.g., Medicare, Medicaid)

For Patients ≥65 years

- Confirmation required that the patient does not have Medicare
- Confirmation can be **verbally accepted** from either the patient or healthcare provider during the initial enrollment

Patients 65+ years of age must confirm verbally or through the HCP that they do not have Medicare insurance

Patient Status

- U.S. resident under care of a U.S.-licensed provider
- Patient naive to the Program Product

2 Enrollment Process

- **Submission Options:** By HCP, by the SP via fax/warm transfer
- **Patient Consent:** Not required but Program Terms and Conditions provided upon approval
- **Follow-ups:** Missing information triggers outreach to HCP
- **Confirmation:**
 - **Patient:** Email/mail/Patient Web Application
 - **HCP:** Email/fax confirmation

3 Program Terms

Free Doses: Up to 3 free doses provided

Dose Breakdown

- **For Prurigo Nodularis (PN):**
 - **<90kg:** 2 pens (loading) + 1 pen per 2 maintenance doses = **4 pens**
 - **≥90kg:** 2 pens (loading) + 2 pens per 2 maintenance doses = **6 pens**
- **For Atopic Dermatitis (AD):**
 - 2 pens (loading) + 1 pen per 2 maintenance doses = **4 pens**
(No weight requirement)

Refill Eligibility

- **HCP must actively pursue coverage:**
 - SP status, FAM confirmation, or plan submission

4 Post-Quickstart Scenarios

- **If Authorization Denied:** Eligible if *Appeal in Progress* or referred to PAP
- **If Approved:** Transition to commercial dispense
- **If No Coverage After Quickstart:** Assess for Bridge Program eligibility

5 Key Notes

- Quickstart ensures patients receive their prescription within **1 week of enrollment**.
- Quickstart eligibility terminates **5 days** after network SP transfer if no dispense is confirmed.
- If commercial dispense is confirmed, no additional Quickstart doses are provided.
