

Brethren,

It gives me very great pleasure to learn that The Golconda Lodge No. 3249 is launching its official website.

In an age where communication is instant and far-reaching, it is both prudent and progressive that our Lodges embrace appropriate technology while remaining steadfast to the ancient landmarks of the Craft. A well-conceived website is not merely a digital presence; it is a window through which the world may get a glimpse of the dignity, values, and charitable spirit of Freemasonry.

I commend the Worshipful Master, W Bro. Rajnish Popat, his Officers, and the Brethren of Golconda Lodge for taking this initiative. In particular, I must congratulate Bro. Flt Lt Adapa Gopal for his time and efforts in designing this website. May this platform serve as a beacon to worthy men who may seek to better themselves in the light of our principles.

Let it reflect the harmony, decorum, and excellence that characterise the Lodge in its labours. If used wisely, it will strengthen bonds within the Lodge, enhance its public profile, and support its charitable and fraternal endeavours.

I congratulate Golconda Lodge on this important milestone and wish the Brethren every success as they continue to build—both within the Temple and beyond it.

With fraternal good wishes,

Mathew Joseph

District Grand Master

District Grand Lodge of Madras
