

## Pricing & Services

- ❖ EDGE to EDGE/PANTOGRAPH ~ Designs from a simple all-over meander to themed motifs
  - Price per square inch includes loading, thread, (up to 2 colors), a new needle, the quilt pattern of your choice and edge-to-edge quilting.
  - Pricing depends upon the *pattern density* of the selected E2E pattern and the square inches of your quilt top. We have three rates:
    - Low pattern density pattern (4-5 inch spacing): \$0.0200 (2 cents) per square inch
    - Standard pattern density pattern (2-3 inch spacing): \$0.0275 price per square inch
    - High pattern density pattern (.5-1 inch spacing): \$0.0375 price per square inch

To estimate the base price for your project, multiply the length x width (in inches) x price per square inch based on pattern density.

**Example: 60 (width) x 80 (length) = 4800 square inches x \$0.0375 = \$ 180.00**

- ❖ CUSTOM/HEIRLOOM QUILTING ~ Contact us to schedule a consultation
  - Price per square inch includes loading, thread, (up to 2 colors), new needle, all quilting
