As a customer of Superior Protection Services for over 25 years I have always been very impressed the level of service, professionalism, and detail that they give me a customer. Stu has consistently gone above and beyond the call of duty in helping us with the myriad of issues we've had over the years, even when it falls outside of his responsibilities. Especially recently with the increasing complexities of complying with rules that are constantly changing, Stu has always exhibited first class knowledge of the rules and regulations and has consistently advised us with the appropriate steps to take. The honesty, integrity, professionalism and a real knowledge of the business that only comes with so many years of experience is what has kept us as very satisfied customers for all these years.

Sincerely,

Eddie Serure
