

Nurse's Prayer

Lord, grant me steady hands and a calm spirit.
Give me wisdom to see what my patients need,
Strength to carry them through their darkest hours,
And compassion to treat each one with dignity and grace.

Help me to be Your presence in every room I enter —
A light in moments of fear, a voice of reassurance in chaos,
And a vessel of healing, guided by Your will.

Bless my colleagues, my patients, and their families.
When I feel weary, remind me of my calling:
To serve, to comfort, and to love as You love me.

Amen.

■ May this prayer steady your heart before every shift. ■
