## Conductive Educator Job Posting

**Pathways Children's School** is a **transdisciplinary program** that serves students who have various **neurophysiological disorders**, which affects their physical, cognitive, social and emotional development. This impacts their ability to move, learn and communicate in the same way as their typically developing peers. The modified common core curriculum will be **highly individualized** and tailored to each students' learning needs which include but are not limited to: learning style, learning rate, and access.

We are committed to the learning of students with **very high needs** in most or all need areas, including academic, social and/or interpersonal development, physical development and management. Via the application of a high degree of individualized attention and intervention, **very intense individual programming**, continual adult supervision, and a program of conductive education, physical, occupational and speech/language therapy, it is our mission to enable this under-served community to access the information and experiences that will enable them to both understand and interact with their world.

We are a 12-month program, offer medical benefits and paid time off.

We are seeking a certified FULL TIME Conductive Education Teacher looking to grow with a small school. The ideal candidate will have the following qualifications:

- A new or experienced certified Conductor/Conductor-teacher, or MDC
- Knowledge of sensory integration and processing, via providing neurophysiological and neuromuscular training
- ability to incorporate Adaptive Devices/Adaptive Equipment
- Experience working with students with multiple/profound disabilities.
- Experience working with underserved populations
- Ability to communicate with a transdisciplinary team in English
- Team player
- CPR certification
- Knowledge of state health regulations
- Ability to multitask
- Outside of the box thinker
- Inherent belief that children with severe medical, physical and cognitive complexities can learn

- Willingness to take on leadership roles

**JOB GOAL and RESPONSIBILITIES:**

- Provides direct and indirect Conductive Education services to students, in concordance with students' academic and therapeutic goals
- Works as a member of an interdisciplinary team to provide assessments, services, resources and referrals to address a variety of student needs.
- Adapting and varying learning experiences to meet the needs of students with disabilities in physical education
- Improving the physical effects of a student's disability
- Teaching fundamental motor skills and patterns
- Sessions address areas of ortho-function, ADLs, adaptive behavior, internal motivation, active participation, self-direction, social skills, leisure skills, living skills, functional academics, community use, health and safety, and prevocational skills.

**Job Type: Full-time**

**Pay: \$70,000.00 - \$85,000.00 per year**

Please apply via our website with your resume and cover letter.
