

TABLE OF CONTENTS

i	Table of Contents	i-iii
1	Recent Trends in Food Processing and Preservation: A Review of Its Application Luxita Sharma and Dhananjay Sharma	1
2	Citrus Fruit Waste and Its Utilization Sonia Sorout, Arun Kumar Pandey and Hanu sharma	6
3	From Ancient Grains to Modern Meals: Millet-Enriched Traditional Foods M. Deepa and M. Yugandhar Kumar	10
4	Trends in Food Processing and Preservation: Innovations Shaping the Future Pushpa Dhillon, Kamla Malik and Sujeeta Yadav	12
5	Modern Food Preservation Techniques: Balancing Shelf Life and Nutrition Praveen Kumar and M. P. Mandal	14
6	Processing and Value Addition to Jack Fruit (<i>Artocarpus Heterophyllus</i>) Seed Sucharitha Sirivella and Bhargavi Devi Katheti	16
7	Barley: A Potential Cereal for Healthy Food Priti ¹ , Poonam Bansal, Charu Lata, Ishani Shaunak and Rajneesh Sharma	19
8	Biopolymers in Modern Food Packaging Solutions Prativa Priyadarshini Singh, Sanjay K. Dash and Minati Mohapatra	22
9	Dragon Fruit: A Review on Nutritional Profile, Functional Properties and Health Benefits Dnyaneshwar Joshi, Anuprita Joshi, Surendra Sadawarte and Ansari Ahmed	24
10	Efficient and Sustainable Processing of Horticultural Crops Meghana Singh Rajotia	27
11	Value Added Products from Finger Millet and its Health Benefits for Healthy Life Dhanushkodi V., Thanga Hemavathy A. and Sangeetha S.	31
12	Endophytes: A Natural Solution for Food Safety and Reduced Waste Meena Barupal and Sunita Arora	33
13	Enzyme Engineering: The Future of Food Processing and Preservation Amrita Pramanik, Sayantani Mondal, Sunanda Mondal and Somveer	38
14	Food Preservation: Extending Shelf Life using Processing Techniques Shiwani Singh, Prital Bhujbal, N R Karambele and S. D. Jagadale	42
15	Freezing in Food Processing and Preservation Neetu	46
16	Green Technologies in Food Processing and Preservation Balasanthosh K. and Priyanka S.	49

17	Cultivating Guava: The Hidden Gem of Your Kitchen Garden M. Deepa and M. Yugandhar Kumar	53
18	Natural Gums: Commercially Valuable Plant Products for Value Addition Karthik H. N., Hanumantha M. and Raghavendra J.	56
19	Harnessing Modern Harvesting Technologies for Enhanced Food Processing and Preservation R. S. Prasanth and Devabattini Sharika	60
20	Nutritional Significance of Legume Crops Swati Kumari, Gullnaj Khatoon, Shambhu Krishan Lal, Sudhir Kumar, Soumen Naskar, Madan Kumar and Varakumar Panditi	63
21	Fighting Fungal Toxins in Food Crops: Innovative Approaches in Processing and Preservation Divyashree and K. K. Chetan	68
22	Carbon Dots: Nanomaterial for Food Safety and Quality Applications Manju G, Ramesh V and Amit Kumar	71
23	Initiatives By the Government of India to Transform the Food Processing Sector in The Amrit Kaal Ashish Madhukar Jadhav	75
24	Harnessing Blue LED Technology for Advanced Food Preservation and Safety Poornima K. R. and Naik Omkar Mahesh	78
25	Microplastics: Its Impact on Human Health Priya V. N. and Mamatha H. S.	80
26	Market Based Processed Spices: Safe or Threat? Chitrotpala Devadarshini and Soumya Sucharita Sahoo	83
27	Ozone Treatment: The Green Technology Amit Verma, Prince, Dimple and Somveer	85
28	Agricultural Produce: Post-Harvest and Their Management Kavya R. G. and Madhavi M.	88
29	Sky-High Efficiency: The Impact of Drones on Food Processing R. Bhargavi, M. D. Mubeena, K. Raghavendra Chowdary, T. Lakshmi and G. L. Siva Jyothi	91
30	Processing, Standardization and Value Addition to Kidney Bean (<i>Phaseolus Vulgaris L.</i>) Flour Soumya Chekka, Bhargavi Devi Katheti and Sucharitha Sirivella	93
31	Red Yeast Rice: A Fusion of Tradition and Modernity in Food Processing and Preservation Bhargavi Devi Katheti and Sucharitha Sirivella	96
32	Postbiotics: Revolutionizing the Future of Food Isha Saini, Ajit Kaur and Urmila Gupta Phutela	100
33	Processing and Its Techniques in Vegetable Crops S. Hima Bindu	104

34	Value Addition of Sweet Potato Alok Kumar and Ng Piloo	106
35	Revolutionizing Food Preservation with the Power of Nanotechnology Amrita Pramanik, Sayantani Mondal, Sunanda Mondal and Somveer	108
36	Food Preservation Techniques Luxita Sharma and Kajal Dhama	112
37	Futuristic Food: How High-Tech Processing is Transforming What We Eat Naveen Kumar and Rohit Bothra	116
38	Role of Ascorbic Acid in the Preservation of Food Debasrita Banerjee	118
39	Post-Harvest Management Practices and Policy Issues for Promoting Dragon Fruit Production in India Ajay Singh* and Gunja Thakur	123
