TALKS THAT TRANSFORM YOUR TEAM

SESSION 01.

There's no change in comfort and there is no comfort in change. We all know that change is inevitable, yet we often meet it with resistance. This session explores the concept of "leaning into resistance" to change by understanding its roots and turning it into a catalyst for growth and innovation.

Lean Into the Resistance of Change!

Attendees will learn strategies to engage with resistance constructively, transforming obstacles into opportunities for greater insights and growth. By recognizing resistance as a powerful indicator of change, leaders are better positioned to help others navigate uncharted territories and work through limiting beliefs.

SESSION 02.

Is your organization struggling to be more productive? Are you trying to develop a powerful employer brand to attract talent? Invisible Disabilities What You Don't See Does Cost You

Developing a supportive and business-savvy culture is essential in today's shifting talent market. Invisible disabilities affect all businesses. After attending this session you will have a toolkit to implement inclusive practices that help you address the financial, compliance, and cultural aspects of invisible disabilities.
