RUBBER GOODS TESTING

ABOUT US

At GML Utility Services Cooperative we empower municipal utilities and departments through innovative engineering, energy consultation, line clearance, rubber goods testing, vehicle maintenance and repair. Committed to reliability, sustainability, and client satisfaction, we forge collaborative partnerships, delivering tailored solutions for resilient communities.

GML understands the critical importance of reliable PPE. Our lab utilizes state of the art VON testing equipment and is all encompassing. GML can test and certify rubber goods ranging from Class 00-4. Our thorough, efficient process is meticulously aligned with ASTM and OSHA standards.

- ✓ ASTM testing of gloves and sleeves from Class 00-Class 4
