LIVING SUSTAINABLY

LEMON CORDIAL

Anyone with a lemon tree knows the frustration of having too many at one time and let's face it you can only make so many Lemon Meringue pies, Lemon Curd, Lemon Butter etc etc so here is a great recipe for lemon cordial that has been in our family for years, we serve this cordial during our workshops and we always receive great feedback on it.

- 1.2 litre water
- 1kg Sugar
- 600mls fresh squeezed lemon juice
- 1 dessertspoon lemon essence

Dissolve sugar in water and bring to boil, once boiled take off heat, allow to cool and add lemon juice and essence and then store in sterilised bottles (will last years)

Dilute as necessary in water or soda water, add ice and enjoy on a hot summers day
