## Volume 22, Issue No 1

This issue of TRAINER is all about UPDATES. We also have an idea from Imogen at Bristol Channel Diving Services and the welcome of Canary Divers as a new IDEST Ltd Training Centre.

## Instructor Resources updates

A lot of time has been spent these last few weeks updating all the materials to IDEST Limited versions in the Dropbox IDEST Ltd Instructor Resources folder.

The Instructor and Student Manuals are all updated with the new name and logo, thanks to Mike Clack, our graphics contact.

The Student Manuals have been updated to **version 1.22**

The promotional sheets have been updated to **version 5**

The 3-fold leaflets have been updated to **version Feb 22**

The theory assessment papers have been amended for a few errors and out-of-date questions spotted by our eagle-eyed Chairman and Neil from BCDS.

The certificates being issued now all have the IDEST Limited logo on them.

So, please make sure you download these latest versions when running the events.

## Imogen's great idea

Imogen from Bristol Channel Diving Services contacted me with the idea of making the Student Application Form an Adobe Form.

This means that the form can be completed online by the centre or by the student.

Each piece of information would have a field name and so the information entered can be transferred to database.

This would save time, paper and a few trees, all being well. The concern is whether this style of application form would suit all training centres.

## New website coming

As you may recall we have separated the training from IDEST and put it into IDEST Limited. As such we need to create a dedicated training website and so we have acquired the domain **[www.idestuk.org](http://www.idestuk.org)**.

This is the same name that we have been using for the YouTube channel which contains our three training videos.

I am in the process of transferring all the training detail from the SITA site to this new one.

There are currently five pages:

- Home
- About
- Training Courses
- Training Centres
- Contact Us

If you have any improvements or suggestions of new things to add, please get in touch so I can include them.

**So, watch this space...**

---

## New Training Centre

We would like to welcome Canary Divers, up in Rishton near Blackburn. The owner, Kris Fearnley is very keen to promote IDEST Ltd training courses.

Kris is a commercial diver and has been running Canary Divers for a number of years now. He has close contacts with training organisations in the USA and UK, promoting enclosed space training, commercial diving courses and HSE First Aid.

He is looking forward to offering high quality technician training with a target towards the commercial diving audience. He has been a technician for the past 9 years testing hundreds of regulators & cylinders a year. He considers that IDEST Ltd has a very high-quality control standard that is needed/required for technicians in the industry.

---

## IDEST Ltd Training Centres update

This is the current list of Training Centres:

- **Bristol Channel Diving Services, Cardiff. TC001**
- **M60 Scuba, Stockport. TC003**
