

## Solo Hands Music — Press One■Pager

### Overview

Solo Hands Music is an independent music and visual storytelling project distinguished by an extraordinary creative commitment: a new original music video released every Saturday since January 2020 — without missing a single week.

Each release pairs original music with cinematic visuals, forming a long■running visual and musical journal shaped by memory, place, relationships, imagination, and the passage of time.

### The Work

Solo Hands Music moves fluidly across genres — including singer■songwriter, folk, country, electronic, cinematic, and experimental. Sound and visual style are chosen to serve the story of each piece rather than conform to trends or categories.

The visual language spans live■action, animation, watercolor■inspired aesthetics, graphic storytelling, and AI■assisted photorealistic imagery, creating a distinctive and evolving visual identity.

### Consistency as Creative Practice

Weekly release is treated as a discipline rather than a marketing tactic. This rhythm encourages experimentation, long■form storytelling, and seasonal arcs. Recurring themes include annual Christmas releases centered on family and memory, as well as a Wales■inspired series around St. David's Day reflecting personal heritage and cultural roots.

### Artist Background

Solo Hands Music is created by a composer and visual artist whose background spans classical piano, electronic composition, and a career in science, mathematics, and technology. Born in Wales and now based in North America, these influences shape a perspective that blends structure with imagination, precision with emotion, and tradition with experimentation.

**Artistic Philosophy**

The project is guided by the belief that meaningful creative work is built incrementally — by showing up regularly, remaining curious, and allowing ideas to evolve over time. Rather than seeking moments of hype, Solo Hands Music focuses on continuity, honesty, and presence.

**Release Schedule**

New original music video every Saturday at 11:00 AM Pacific Time.

Weekly releases since January 2020.
