Oprah Winfrey

January 1954– Present

Oprah Winfrey is a famous American personality, actress, and entrepreneur. Oprah's daily talk show, The Oprah Winfrey Show, is one of the most popular in its genre.

Oprah Winfrey has also engaged in various philanthropic activities – including Oprah's Angel Network, which sponsors charitable initiatives across the world. Aside from this, she opened a school for disadvantaged girls in South Africa in 2007.

Did you know?

- Winfrey started her career at the age of 19, as a news anchor for the local CBS television station.
- Winfrey's memorable acting roles were in the following films: A Wrinkle in Time (2018), The Butler (2013), Beloved (1998), The Color Purple (1985).
- Winfrey has won numerous awards, including the Jean Hersholt Humanitarian Award in 2011, the Golden Globe Cecil B. DeMille Award in 2018, and the Presidential Medal of Freedom in 2013.

Instruction SLIDE

NIKOLE HANNAH-JONES

HANNAH-JONES HAS HAD AN AMAZING YEAR, AND THAT'S IRREFUTABLY BECAUSE THE PULITZER PRIZE WINNER AND CREATOR OF THE NEW YORK TIMES' THE 1619 PROJECT IS A GREAT JOURNALIST.

THEIR LEGACY

- Nikole Hannah-Jones is the wildest dream fulfilled of the Black female journalists who wrote the truth of their times before her.
- Sector: Media
- Age: 44
- From: New York, NY

ACHIEVEMENTS

- This year, the New York Times Magazine reporter and six-time **The Root 100** honoree earned crowning recognitions for her editorial brainchild.
- *The 1619 Project*, which recontextualized the Black American story starting with the arrival of the first enslaved Africans. She was awarded the ultra-prestigious 2020 Pulitzer Prize for Commentary, an achievement in and of itself, but the Pulitzer Center also became an official education partner for *The 1619 Project* and helped to dispatch an entire curriculum based on Hannah-Jones' brilliant work to more than 4,500 classrooms nationwide. This completely pissed off the current resident of the White House and his ineffectual right-wing chumps (see: Tom Cotton), but you know you're making good trouble when politicians are big mad.
- Hannah-Jones is changing how history is taught, and this year, after helping to reignite the discussion about reparations and racial justice for Black Americans, she's reframing what the future looks like, too.
