

1

PLANS & DESIGN

With Colt Collier Construction, having home plans made perfect for the client is always a top priority, and our plans designer will do just that. They will work with the client and take current plans and ensure the best version for the client.

2

SITE ANALYSIS

Colt will meet at the project site to get a better idea of the project. During this meeting, we will discuss your ideas and goals for your project.

3

ESTIMATING

Once we have the final plans, we will provide a preliminary specification document. We, then, send your specifications and plans to our network of vetted and insured sub-contractors for their estimated cost of the project.

4

FINANCIALS

Once the proposal is accepted and the client has their financing in place, we are then ready for land prep and permits!
