

Dear (insert name of MP),

You will have received an invitation from MP Andrew Bridgen to attend a meeting on the 4<sup>th</sup> December 2023 and I am writing to ask if you would be so kind as to attend the address to MPs.

Doctors and Analysts will give short speeches concerning the pandemic and its consequences. Dr David E. Martin, Dr Pierre Kory, Dr Robert Malone, Professor Angus Dalglish, Dr Ryan Cole, Steve Kirsch and a brief recorded address by Dr Peter McCullough. There will then be a Q and A Session.

As one your constituents, I would appreciate it if you made every effort to attend this address.

I would also urge you to give your support to a three-hour debate on excess deaths, which I know is supported by many thousands of constituents across the UK. We need a three-hour debate on excess deaths as we have experienced more excess deaths since July 2021 than in the whole of 2020. Unlike during the pandemic, however, these deaths are not disproportionately of the old. In other words, the excess deaths are striking down people in the prime of life, but no one seems to care.

Members of Parliament can prove that they care by supporting Andrew Bridgen MPs call for a three-hour backbench business debate on trends in excess deaths in the House of Commons chamber. Securing this debate is in the interest of all the general public, including myself.

Sincerely,

Your Constituent (insert your name)
