Conduct individual and group therapy sessions

Maintain confidentiality of records relating to clients' treatment

Gather information about community mental health needs and resources that could be used in conjunction with therapy

Assess clients' mental condition based on review of client information, interviews, observation, tests, and collaboration with other staff members

Serve as a client advocate to coordinate required services or to resolve emergency problems in crisis situations

Conduct initial family assessments and refer patients, clients, or family members to community resources or to specialists as necessary

### **Qualifications**

1-2 years of experience with providing diagnostic assessment and therapy services to a full range of individuals from youth through adulthood

Ability to work as a team member and cooperatively

Must be able to work flexible work schedule including evenings

Superb organizational skills

Ability to guide, direct, or influence people

Excellent written and oral communication skills

Able to establish and maintain effective working relationships with clients and their families

### **Mental Health Therapist will have the Opportunity to Learn**

Comprehensive Multi-Disciplinary Examination (CMDE)

Early Intensive Developmental Behavior Intervention (EIDBI)

Adult Rehabilitative Mental Health Services (ARMHS)
