To whom it may concern,

We recently completed a High Limit Gaming and Lounge Expansion Hard Rock Hotel & Casino in Sioux City, IA. We contracted with Land and Sea Surfacing, Inc. to supply & install their Belbien wood grain product on ceilings in the newly built High Limits Lounge. This space was designed with great care to detail, and the ceiling was meant to be a centerpiece and focal point for the entire space. Land & Sea did not disappoint! Even though they had less than a 2 week notice to get the material and mobilize, they arrived on site on time. Their certified installers did an excellent job installing the product on the 64' long ceilings in the space. The ceiling came out beautifully, and was completed on schedule.

It was a pleasure working with a company that could give us turn-key service. Their professionalism and quality of workmanship well exceeded my expectations. I would be happy to recommend Land and Sea Surfacing, Inc. and look forward to working with them in the future!

Sincerely,

W.A. Klinger L.L.C.
