

IMPACT REPORT

Monday
February 23, 2026

INTRODUCTION

In 2025, Gervonni Cares served 1,900+ individuals across 484 households, providing wraparound support in housing stability, eviction prevention, food security, financial literacy, workforce support, and youth development services throughout Maricopa County, with a focus on the West Valley.

Of those served, 410 were returning clients, reflecting sustained engagement and trust in our long-term stability model, and 188 were individuals served outside of family households, including seniors and vulnerable residents.

Our approach ensures families do not face a revolving door of crisis but instead receive continued support until stability is achieved.
