## Spotlights

Hilltop Public House

This month we are excited to bring you a special spotlight, a new business that has come to the Hilltop area. For those who know, the space next door to Seville Salon has been undergoing heavy renovations for some time, but February will see its unveiling: The Hilltop Public House!

They have a wide variety of offerings planned, such as starting your day with Mama Mocha's coffee and bagels. Other assorted pastries and the like will be provided by Fennel and Fig (you should go check out their location in Cloverdale if you haven't yet). There will also be 8 rotating draft beers and a wide selection of liquors, and all sorts of wine, for when you are ready to imbibe a bit in the evenings.

Inside is also the home of Capitol City Bicycle Repair. Got a bike problem? Bring it in and enjoy some food and drink while they look it over.

If you can't tell, we are super excited for this. This is exactly the sort of progress that got the Howlers motivated to start our non-profit, and we can't wait to see what all this will bring to the community.

To that end, we are hosting our first monthly networking event here, on 2/22/22. An auspicious date, so what better night to come out, meet other people in the community, and build some connections over a drink and a scone?
