SPOTLIGHTS

Other: #OneMinuteMgm

We've started a project that we hope the community will join us in! Periodically we are releasing one minute videos highlighting our favorite places in MGM that we feel need more love. If you have places that you feel need to be highlighted, why not take your phone and make a quick minute video telling us why that place is special, then upload it with the #oneminutemgm hashtag! We look forward to seeing what you highlight!

Business: The Lab on Dexter

Downtown MGM continues to flourish, and one of the latest additions is The Lab on Dexter. Located about midway up the street this public/private partnership is to be an incubator and home for all manner of new businesses going forward. It features "coworking desks, small business suites, conference rooms, collaboration and event space."

Music: Halloween Hootnanny!

October 23rd at the Sanctuary DJ Clemanzo will kick things off at this, the biggest underground show of the month. Grasping at Pieces, the Gumps newest punk band will be doing a set, followed by long time favorites Pleasant Valley with their iconic two piece doom stylings. The Chodes will be bringing their brand of Panama City punk to the stage, and locals Abusements will round things out. Costumes are encouraged. 10 bucks.
