WHS Weight Room Initiative

To whom it may concern,

Established in 1897, Wetumpka High School boasts nearly 125 Years of School Spirit, Winning Traditions, and Central Alabama Pride. Through many State Championships and Regional Titles and over 100 athletes receiving college scholarships, WHS Athletics lives by our motto, “Win the Moment.” However, the flagship school of our beloved community needs your help. Wetumpka High School urgently needs a new weight room facility. Through years of wear and tear, the floor and almost all equipment has become unstable, broken, and hazardous to student use. Moreover, it needs to reflect the standard of excellence we strive to pursue at WHS. Because all sports at Wetumpka High School use the weight room equally, as well as our students in the Strength and Conditioning classes, hundreds of students at WHS use the facilities daily. Thus, our Vision is to create a state-of-the-art Weight Room/Performance Center to provide student-athletes across each sport with a memorable experience and the tools and programming necessary to be successful at their sport. Our needs are to get updated flooring and equipment that is safe for our students to train with and secondly to get equipment that is tailored to the training needs of our female student-athletes. Obtaining the funding for the new facility will allow Coaches, Teachers, and Administrators to continue creating an atmosphere of hard work, accountability, respect, goal setting, and pride that is reflective of our community of Wetumpka, Alabama. Together, Win The Moment!!
