# THE LIBERIA EXPERIENCE

Our Planting A Seed International (PASI) Fellows are a diverse group of student leaders with one thing in common; a passion to serve the underprivileged. This opportunity allows students to create inspirational moments that can't be listed in an itinerary. They can only be experienced.

Fellows are provided with the opportunity to carry out several service-learning initiatives under the following areas of focus:

 Education, Literacy and Youth Development

 Health Care: Health Education and Support

 Global Diplomacy

 Career Development

Liberia is filled with incredibly resilient people with important history and culture. While in Liberia, you will be introduced to people with whom you can share, learn, and build solidarity.

“Through my experience with the Liberia West Africa Fellowship Program, I have gained a true understanding and responsibility to the service contribution I can and will make to help improve the lives of others around the world.” - Imani Bey
