Wey, 1836.

Specification for a School House for the
New School District

The House to be made for three years of the
are and general plan of the State School
House, with the following exceptions:

The first projection for Wey & Entry to be one
foot shorter.

One partition in the Entry and outside
light to the front door. Put in a hat or tobacco pipe
case. Put a water case window between the front door,
and a window in the partition of the Centre room
opposite the front window above named.

Use the plans & Details in the Principals Room
of the old School House for the Principals Room in
the New House, repairing & mending them as good.

Use the Seats & Doors in the Primary Room
of the old School House for the Primary Room
in the New House, repairing and mending them as good.
