

Build A Kestrel Box

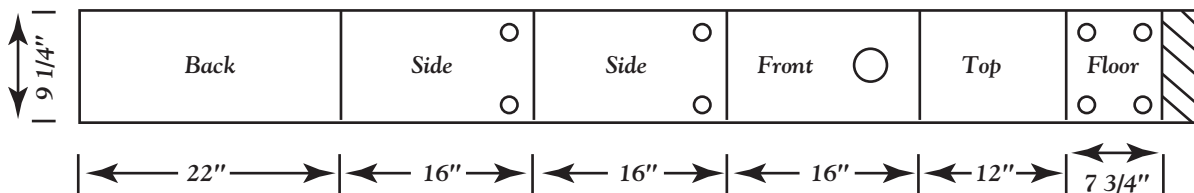

(for screech owls, saw-whet owls and gray, red and fox squirrels also)

Entrance or hole should be 9"-12" above the floor.
Place 15-20 ft. high on a pole, side of a barn or on a lone tree in a field. For screech owls, do the same only place in woods or a large tree in a yard.

Optional: Locate 3" diameter entrance hole here for squirrel box

Lumber: One - 1" x 10" x 8'0"

Hoos Woods
