## About us !

Shanay design studio was established with a clear mission—to deliver exceptional interior design services marked by quality, creativity, and client-focused solutions. Over the years, we have evolved into a full-service interior design firm comprised of highly qualified and passionate designers who work collaboratively to bring spaces to life. At the heart of our work is a deep care for people—we design interiors that not only reflect our clients' vision but also provide comfort, functionality, and lasting beauty. Our approach is turnkey, managing every aspect of a project from initial design concepts and selection of furniture, materials, and decor, to construction documentation, budgeting, and project coordination. Every detail is handled with precision, professionalism, and a strong commitment to excellence. We believe in designing not just interiors, but meaningful experiences—spaces that are user-centric, sustainable, and truly unique. Our mission is to craft both interior and exterior design experiences that are distinctive, engaging, and of the highest quality. Shanay design studio , we don't just create spaces—we create environments that inspire and elevate everyday living.

## A DAY IN THE LIFE OF AN INTERIOR DESIGNER

As interior designers, we are responsible for crafting spaces that are not only visually appealing but also highly functional, whether residential, commercial, or industrial. With years of experience and a diverse portfolio, we take pride in our ability to transform spaces with creativity, precision, and purpose.

Our work goes far beyond choosing colors and furniture. We collaborate closely with architects and clients to plan layouts, select materials, ensure safety and compliance, manage budgets, and oversee the full execution of each project. This unique blend of artistic vision and technical expertise distinguishes interior designers from traditional decorators.

We believe that great design balances personal style with practical needs. Every project we take on is guided by our client's vision, and we are committed to delivering results that reflect their lifestyle and taste. Whether we're reading blueprints, coordinating with contractors, or fine-tuning final touches, our goal remains the same: to create beautiful, functional environments that feel truly complete.
