Immune Support

Potent Antioxidant

Blood Sugar

**REVERSE**  
**AGING!!!**

LUMEN8 is a unique supplement incorporating the potent properties of blue-green algae AFA (Aphanizomenon flos-aquae) and methylene blue. With age, the body's natural vitality can diminish, but LUMEN8 aims to replenish this through its specifically designed formulation. Available in a pack of 3 x10 dissolving strips, LUMEN is made for your convenience and comfort, promoting overall well-being with ease.

#### INGREDIENTS LIST

Blue Green Algae, Methylene Blue, Pullulan, Polyethylene Glycol, Stevia, Sunflower Lecithin, Organic Mint Flavor

#### HOW IT BENEFITS YOU

Studies underscore that blue-green algae AFA and methylene blue are beneficial for your health. As you get older, the body's ability to function at its peak can decrease. Enhancing your intake of AFA can improve your nutrient levels, while methylene blue can help with cognitive functioning. These components can not only promote your overall wellbeing, but also amplify your energy, aid in brain health, and offer numerous other benefits.
